Round red/orange coloured smoke issuing from him, object was ~~spinning~~ spinning on its own axis

Initially seen behind trees came from trees into cleared area above road near to a house which has a white light on its roof - object then went behind trees but could still see glow then glow died. All three tenders waited up until 0300 hrs for another sighting but object did not reappear

When object came into open it flew on two S shaped courses

As a point of interest. I live in the area and as late as weekend 14/15 June I have been told of previous sightings by a neighbour - the neighbour knows I am employed on Flying Complaint Duties

## MINUTE SHEET

Subject  
UFO SIGHTING

Station: Pontefract Date: 6 May 1986

Superintendent Section 40

At 9.25 pm on Sunday 6 April 1986 I was on duty at Pontefract Police Station when I had occasion to speak with [redacted] Purston, Featherstone. Section 40 had telephoned the Police Station with regard to what he believed was a UFO sighting at 9.20 pm that evening and furnished me with the following details.

- 1) Duration of sighting - Two minutes.
- 2) Description of object - One only - bright white - gave impression of being a star - made no sound - unable to estimate size.
- 3) Location of observer - stood in garden of Section 40
- 4) How observed - naked eye.
- 5) Direction of first sighting - stationary.
- 6) Angles of sight - Approximately 45°
- 7) Distance of observer from object - unable to give estimate except to say it was a fair distance.
- 8) Movement of UFO - Steady, becoming erratic and gathering speed moving in easterly direction.
- 9) Weather conditions - fine, good visibility.
- 10) Objects of interest - Nil.
- 11) Observers Section 40 only known observer.
- 12) Background of informant - Amateur astronomer.
- 13) Press enquiries - Nil.

Please pass this report to General Administration Department Force Headquarters for their information and attention.

IDENTIFIED FLYING  
SIC SIGNING.

At 9.25 pm on Sunday 6 April 1986 I was on duty at Pontfract Police Station when I had occasion to speak with

Section 40

Section 40

Proctor F. FARMHOUSE, who telephoned in relation to the possible sighting of an unidentified flying object.

He informed me that at 9.20 pm that evening he had been in the garden of his home address, when he noticed, what at first appeared to be a star, moving across the sky in an easterly direction. He described it as being bright white and giving the appearance of a star.

He was unable to estimate distance or altitude and could only say "it was very high and far away".

He observed this for approximately two minutes without the aid of any optical instruments. Towards the end of this observation it suddenly gathered speed and began moving easterly across the sky at "tremendous speed" maintaining an easterly course.

At the time of the sighting the weather was fine with a clear sky.

Section 40 informs me that he is unaware of any other person sighting what he did.

I ask that this report be forwarded to General Administrative Department, Force Head Quarters for their attention and information.

A. Date, Time and Duration of Sighting. (Local times to be quoted).

15 MAR 86

First sighted 10.05pm } Duration 1 hr 5 mins  
last sighted 11.10pm }

B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Circular. Approx 5x size of a star in diameter when first sighted. Size reduced to approx that of a star during period of observation. Single object, coloured with a tinge of pink. Bright and regularly pulsating

C. Exact Position Observer. (Geographical location. Indoors or outdoors, Stationary or moving).

First sighted from car whilst travelling along Radheath to Spaxworth Road. Further observation took place from the home of the observer - both indoors and outdoors

D. How Observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye

E. Direction in which Object was first seen. (A landmark may be more useful than a badly estimated bearing).

Estimated as NW of Pole Star

F. Angle of Sight. (Estimated heights are unreliable).

Approximately 15° above the horizon

G. Distance. (By reference to a known landmark wherever possible).

At great distance

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

During period of observation the object moved 25° laterally to the right 15° vertically downwards

J. Meteorological Conditions during Observations. (Moving clouds, haze, mist, etc).

Very clear skies, almost no cloud

K. Nearby Objects. (Telephone lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Nothing nearby to affect sighting

L. To Whom Reported. (Police, Military organisations, the Press etc).

Only reported to RAF. Initially, report was out of curiosity, but later a second report received which the observer wished to be made as a UFO observation

REPORT OF AN UNIDENTIFIED FLYING OBJECT

CONF/31/5/Air

A. Date, Time and Duration of Sighting. (Local times to be quoted).

28 Feb 86      2020hrs approx.      1 minute approx.

B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Object appeared as number of lights as follows;

- a. indefinable no of white lights
- b. 2 red flashing lights
- c. a possible blue flashing light

C. Exact Position Observer. (Geographical location. Indoors or outdoors, Stationary or moving).

Observed from a car travelling at less than 20MPH in the centre of Drayton and travelling towards Taverham on the Fakenham Road. (O.S Sheet 144 Square 1317)

D. How Observed. (Naked eye, binoculars, other optical device, still or movie camera). Initially with naked eye through windscreen, later through rear window via driving mirror.

E. Direction in which Object was first seen. (A landmark may be more useful than a badly estimated bearing).

Straight ahead of car above a tree close to Morgans Garage.

F. Angle of Sight. (Estimated heights are unreliable).

Approx 75'

G. Distance. (By reference to a known landmark wherever possible).

Unable to judge.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

No movement of object discernable.

J. Meteorological Conditions during Observations. (Moving clouds, haze, mist, etc).

Very clear.

K. Nearby Objects. (Telephone lines; high voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

(Trees mentioned at E above)

SDO RAF COLTISHALE

M. Name and Address of Informant.

Section 40

Taverham

Norwich

Section 40

N. Any Background on the Informant that may be volunteered.

Returned to scene with family approx 5 mins later. There was no further sighting

O. Other Witnesses.

None known.

P. Date and Time of Receipt of Report.

28 Feb 86 2040hrs

Q. Is a Reply requested?

No.

SDO Flt Lt Section 40 added the following comments.

1. The telephone conversation lasted approx 20 mins.
2. The informant sounded excited and nervous throughout the conversation.
3. Whilst vague on some points of the sighting the informant was consistent on many of the others which were referred to several times.

# CHARLES IN UFO RIDDLE

**PRINCE Charles is at the centre of a bizarre UFO mystery.**

The Prince had a close encounter during a flight home from the United States last week.

The pilot of his RAF VC-10 radioed air traffic control to say he had been startled by a "glowing red object" in the sky.

Incredibly, FOUR other aircraft reported sighting the "UFO" over the same stretch of the Irish Sea.

## Visit

An immediate investigation was launched—but no trace of the unidentified aircraft has been found.

Other explanations—such as meteors or debris from a satellite—have also been ruled out by experts.

Charles was nearing the end of a 12-hour trans-Atlantic flight after a five-

## Pilot shocked by close encounter

day visit to the U.S. when the incident happened.

A source at West Drayton air traffic control near London's Heathrow airport said: "The object was reported by five different aircraft, including the Prince's.

"The pilot described seeing a red glowing object. The light from it lit up his cockpit.

"We just don't know what it was. It's a complete mystery."

And an air traffic official

at Ireland's Shannon airport said: "The pilot saw a bright flash in the sky.

"An immediate check was made on all aircraft, but none was missing.

"Whatever the pilot saw, it certainly was not another aeroplane."

A Ministry of Defence spokesman confirmed: "Prince Charles's pilot did report seeing a bright flash, but we are satisfied there was no danger to the Prince's aircraft."

## Philip's a "saucer" watcher

PRINCE PHILIP has been a keen UFO follower for the past 30 years.

Philip—follower

## Creature

UFO expert Tim Good, an author and lecturer, said last week: "It may not be pure coincidence.

"It is likely that any creature from outer space that is more advanced than us would be aware of the significance of a Royal flight."

And former diplomat Gordon Creighton, the editor of Flying Saucer Review magazine, said:

"I've no idea what this object could have been, but it would be wrong to dismiss it. There are beings in space watching us very closely."

He is a keen reader of the magazine, Flying Saucer Review.

And he once invited a man who claimed to have seen a UFO landing to come to Buckingham Palace to tell his story to a Royal aide so the official could report to Philip, who was on tour in Australia.

### Horn of a dilemma

LIKE'S the goat felt a real Silly Billy when he woke up to find one of his horns had dropped off.

The mascot of RAF Halton, Buckinghamshire, became the butt of every joke. So he's been given an honourable discharge.

**STATEMENT OF WITNESS**

(C.J. Act, 1967, s 9,  
 M.C. Act, 1980, s 102,  
 M.C. Rules, 1981, r 70)

I live at the above address but on Saturday, 16th November 1985,  
 I was visiting my mother and father at Section 40 Cowcliffe,  
 Huddersfield.

Section 40 is situated at the top of a hill and overlooks the valley in which Huddersfield Town Centre is situated. Directly across is a range of hills that make the opposite wall of the valley. Slightly to the right is Castle Hill. The house faces South. There are no nearby objects.

About 8.20 pm on this day as a result of something my mother said I looked towards the window and saw in the sky about an angle of 30 degrees above the eye level, two bright lights close together like car headlights. The objects were brighter and larger than the stars but not as large as a full moon. They were the brightest things in the sky at the time. I could not tell if these lights were attached to an object because the lights were too bright.

When I first saw these objects I was indoors looking through the window. The objects were at first stationary.

The lights appeared to be beyond the opposite valley wall. I opened the window and the lights were exactly the same when I had first seen them.

STATEMENT OF:.....

Section 40

Continued:

The lights stayed stationary for about four to five minutes. After this time the lights seemed to move directly towards me. The lights did not seem to get bigger or brighter but seemed to move at a very fast speed, quicker than an ordinary aeroplane would travel when seen at their normal height. The movements lasted about one minute and then stopped. They appeared to stop over the town centre of Huddersfield.

The two lights then zizzagged to the left and then to the right. The objects then disappeared just like switching off a light.

There was a thin streak, weak light left in there place. This was not like the after image you get after looking at a bright light.

At no time could I see any object attached to these lights. The two lights stayed close together in relation to each other. The total duration of this sighting lasted about 8 to 10 minutes.

The weather during the sighting was fine. There were few clouds in the sky.

I have not seen anything like this before or since.

WITNESS**

(C.J. Act, 1967, s 9,  
M.C. Act, 1980, s 102,  
M.C. Rules, 1981, r 70)

I am a housewife at **Section 40** Cowcliffe, Huddersfield,  
with my husband, **Section 40** and my daughter, **Section 40** of 13 years.

**Section 40**  
On Saturday, 16th of November 1985, I was at home in my lounge watching the television. It was about 8.20 pm, I know the time because I was watching 3-2-1 on television.

At this time I could see out of my lounge window, and had an excellent view of the sky over Huddersfield in a southerly direction.

My attention was drawn from the television to two bright white lights shining in the sky directly in front of our house, and I would say to the East of Castle Hill, over Almondbury. The lights were well clear of the land horizon. I could see Castle Hill light and it was lower than the lights in question.

The lights were like a pair of car headlamps very bright and close together. They remained still in the same position for a few minutes so I called my husband and two daughters, **Section 40**

**Section 40** was visiting us.

When I first observed the lights I was sitting still in an armchair.

I then went to the window and called my husband, **Section 40** to have a look at the lights.

The light remained in position without moving for about five minutes.

I opened the lounge window and looked at the lights without the restriction of the window.

PC **Section 40**

STATEMENT OF:.....

Section 40

Continued:

The lights suddenly started moving at what appeared to be a terrific speed straight towards us, the lights got larger and brighter.

The lights reached a point I would estimate to be over Huddersfield town centre when the lights suddenly moved slightly to my left and then back to its original position and then slightly to the right. These movements were very jerky and sudden and the distance moved on each occasion was not very great.

At this point I went out into the garden and observed the lights from a standing position and listened for aircraft noise, but there wasn't any.

The lights then got really bright in the sky and then suddenly the lights disappeared as if they had been switched off, leaving a pencil line of light across the sky, East to West.

From first seeing the lights and its disappearing I observed it for approximately ten minutes in total from different positions and on each occasion I was stationary. I did not use any binoculars or telescope but just used the naked eye.

I do not wear glasses and have excellent eye sight.

I, nor any of my family, had been drinking prior to the sighting. My house is situated on a high hill to the north of Huddersfield town centre with no objects or buildings to block our view over Huddersfield town centre and the hills to the south.

I would estimate the lights appeared in the sky approximately 30 degrees up from our location.

At the time of the sighting the weather was clear and fine,

was slightly frosty, it was dark, and visibility was good.

I have no specialist interest in aircraft or UFO's and am  
just a normal straightforward housewife.

## MINUTE SHEET

Subject

Station: KIRKLEES - DEIGHTON

Date: 8th January 1986

REPORTED SIGHTING OF  
UFO'S - DEIGHTON AREA  
.1.86.

Superintendent Section 40

At 12.43 hrs on Saturday 4th January 1986 Mr.

40

Deighton, Huddersfield telephoned Force Control at Bradford to report sighting a number of UFO's in the early hours of the same morning. The message was recorded on RAG Log 632/4.1.86.

At 1535 hrs the same day I went to Section 40

Section 40 where I spoke with Mr Horne. He related the events described in the statement to me. At the time of the incident he was Section 40 accompanied by his daughter, Section 40 15 yrs, and son, Section 40 12 yrs who are both resident at Section 40. They were not present when I saw Section 40 and have not been seen by a police officer about the incident.

Section 40 is certain about what he saw and says that neither he nor the children had been taking any stimulants or medicines. There are no known other witnesses to the incident.

As will be seen from the statement the description given in the teleprinter of the events is not very good and it could quite possibly be that the objects seen were in fact one object which kept appearing.

Section 40 appears to be a man of average intelligence who appears quite knowledgeable about astronomy and matters of the sky. He informs me that this is the first such sighting that he has seen.

I ask that this report be forwarded to the Home Defence Unit together with the original statement, a typed copy, a copy of the teleprinter and an approximate map showing the places of disappearance and reappearance.

STATEMENT OF: Section 40  
 AGE/Date of Birth: Section 40 OCCUPATION: UNEMPLOYED  
 ADDRESS: Section 40  
 DISTRICT: .....  
 TOWN: ..... POSTCODE: .....

This statement (consisting of two <sup>in original</sup> pages signed by me) is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have stated in it anything which I know to be false or do not believe to be true.

Dated the 4th day of January, 1986 signed G. P. Horne.

**STATEMENT OF WITNESS**

(C.J. Act, 1967, s 9,  
 M.C. Act, 1980, s 102,  
 M.C. Rules, 1981, r 70)

About 0110am on Saturday 4th January 1986 I was at my home address when I let the dog out into the front garden. The dog had been out for a few minutes which is unusual at that time of night.

Section 40 I went into the front garden with my daughter, Section 40 15 yrs, and my son Section 40 12 years, to look for the dog. We had been stood in the garden for a approx two minutes when I saw a red coloured ball shaped object appear in the clear night sky from above my house and travel at a very fast speed towards Brighouse. Suddenly it disappeared from sight, but not behind any object or over the horizon. It just disappeared. The object was very high in the sky and the object was much larger than aircraft landing lights or similar objects. There was no noise whatsoever. The object was in sight for approx three seconds.

We all saw the object and continued to look into the sky. It was a very frosty and cold night and the sky was absolutely cloudless. We did not see anything for five minutes and so returned to the house. Due to pestering from the children we went back outside onto the adjoining Section 40 playing fields about 1.20 am. We had been looking at the sky for about five minutes when we saw another similar object appear from the sky about where the first one had disappeared. It went at great speed again and great height back towards the house. Again it was red and it just disappeared, again not behind any object or the horizon.

We studied the sky until 0230 hrs and in all we saw 11 (eleven) of these objects. The first two were as described, red, and the next nine were silver coloured and, I think, possibly a little smaller in size than the first two. This could have been because they were higher.

They always seemed to appear from the general area in which the last object had disappeared. There was approximately a five minute gap between the disappearance of one object and the appearance of the next and each sighting lasted some time between two and three

seconds. After the 11th object had been seen we waited approx 15 minutes but sighted nothing else. we returned to the house and I kept looking out of the window but saw nothing else.

All three of us are absolutely certain about what we saw. I had not been drinking or using any medication or drugs. It is the first time that I have seen anything of this nature and can say that it was not like anything else I have seen before or can explain.

**Section 40** drew an appropriate sketch of the paths of flight of the objects which I can say is reasonably accurate and I have handed this to PC **Section 40**

signed. **Section 40**
