Our ref: D/US of S/KJ MC00513/2009  
Your ref: AM **Section 40**

18 February 2009

Thank you for your letter of 29 January enclosing an email from your constituent **Section 40** **Section 40** of **Section 40** Haddington, East Lothian, regarding classified technology

With regard to the question of an extra terrestrial presence, it may be helpful if I explain that the Ministry of Defence has no expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. The MOD does examine reports of sightings, but solely to establish whether what was seen might have some defence significance. The MOD's only concern therefore, is to establish whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorized foreign military activity. The MOD is not aware of any official contact with extraterrestrial life.

Your constituent also asks what classified technologies are held by the United States. Clearly, it would not be appropriate for the MOD to comment on this matter. Any questions would best be directed to the US authorities.

Finally, **Section 40** might wish to note that, following an increase in public interest, "UFO" report files are now routinely preserved. Directorate of Air Staff files for 1967 to 1984, and any files prior to 1967 which did survive, are now available for examination at The National Archives, Ruskin Avenue, Kew, Richmond, Surrey, TW9 4DU, Telephone: 0208 876 3444. Details of how to access these records and The National Archives on line catalogue can be found on their website at <http://www.nationalarchives.gov.uk>.

Additionally, the MOD has records of alleged UFO sightings dating back to 1992 whilst the Defence Intelligence Staff has a smaller number of files dating back to the mid 1980s. The MOD has begun a programme to transfer some 160 of these files to The National Archives where they will be available to view by the general public over the

Anne Moffatt MP  
House of Commons  
London  
SW1A 0AA

internet. To date some 27 files have been transferred electronically and are available for public viewing.

I hope this response is helpful.

## Draft Letter from USofS to Anne Moffat MP

Thank you for your letter of 29 January (reference AM/jbf) on behalf of your constituent **Section 40** of **Section 40** Haddington, East Lothian. I have been asked to respond on this matter as I have responsibility for this issue.

With regard to the question of an extra terrestrial presence, it may be helpful if I explain that the Ministry of Defence has no expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. The MOD does examine reports of sightings, but solely to establish whether what was seen might have some defence significance. The MOD's only concern therefore, is to establish whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorized foreign military activity. The MOD is not aware of any official contact with extraterrestrial life.

Your constituent also asks what classified technologies are held by the United States. Clearly, it would not be appropriate for the MOD to comment on this matter. Any questions would best be directed to the US authorities.

Finally, **Section 40** might wish to note that, following an increase in public interest, "UFO" report files are now routinely preserved. Directorate of Air Staff files for 1967 to 1984, and any files prior to 1967 which did survive, are now available for examination at The National Archives, Ruskin Avenue, Kew,

Richmond, Surrey, TW9 4DU, Telephone: 0208 876 3444. Details of how to access these records and The National Archives on line catalogue can be found on their website at <http://www.nationalarchives.gov.uk>.

Additionally, the MOD has records of alleged UFO sightings dating back to 1992 whilst the Defence Intelligence Staff has a smaller number of files dating back to the mid 1980s. The MOD has begun a programme to transfer some 160 of these files to The National Archives where they will be available to view by the general public over the internet. To date some 27 files have been transferred electronically and are available for public viewing.

I hope this response is helpful.

**To:** MOFFAT, Anne  
**Subject:** Classified Technology

Message :

At the risk of sounding like a conspiracy nut I am writing this letter to hopefully get full disclosure regarding the extra terrestrial presence and classified technologies currently being held, by our so called allies in the united states. I am aware that the subject of this letter is a taboo but as an elected member of parliament I believe you have a responsibility to be brave enough to adress this subject and talk about it openly. Currently President Obama has started declassifying technology from the 1920s and 1930s related to antigravity. But it must not stop here. We know for a FACT that government whistleblowers such as Bob Lazar, Edgar Fouche and members of the disclosure project (including Nick Pope from the ministry of defence) know about the extra terrestrial presence. We know for a fact that the United States government have worked on reverse engineering alien technology, such as the TR3-B flying triangle that produces an anti-gravity effect by rotating a mercury base!

d plasma to 60,000 revolutions per minuit warping the spacetime around the craft. I strongly suggest that you spare some of your time to research the disclosure project directed by Dr Stephen Greer. The world is much more sophisticated and I truly believe that the public can handle the truth. The most important thing is allowing the public disclosure on the anti-gravity technology. Anti-gravity technology is noiseless and emissionless. The fundamental scientific principals behind this technology (anomalous effects of rotating Bose-Einstein Condensates) have been investigated by Boeings [GRASP], NASAs Advance Concepts Office, & NASAs Gravity Probe B. Just think about the possibility of reducing our dependency on oil. We need to get government funding to develop this technology here in the UK. Currently Boeing currently has contracts, as well as the B2 stealth bomber using high voltage to reduce the weight of the craft. This is no longer a theory. The government and military !

cant keep lying to the people. We are not stupid, we can handle the truth and the coverup lies dont fool us. We need to talk with our allies and work towards disclosure. I would suggest a G8 style meeting to establish a new world order free from secrecy where we can all enjoy the benefits, work towards a common goal and explore space together, in peace, forever. Thanks. Our prayers go out to you. We know you will do the right think. Lets bring about a paradigm shift and the next great stage in human evolution. Sincerely, **Section 40**

Some text on anti-gravity for you:

Although the MoD is aware of anti-gravity and gravity modification research, the Department does not currently have any research programmes into this field. The MoD does continue monitor these types of developments through our Horizon Scanning activities to assess whether such technologies could be of any benefit to defence in the future.

Please find enclosed an article written by a member of Defence Science and Technology Laboratory (Dstl) concerning anti-gravity and gravity modification research (<http://headoffice/sites/cst/CST-secretaria/SIT%20Sec1/Antigravity%20article.pdf>). Dstl is an agency of the MoD that supplies expert, impartial, scientific and technical research and advice to the MoD and other government departments.

Do let me know if you need anything else.

Section 40

Please take a look at this MC. I can handle the aspects regarding aliens and their presence on earth, but have no idea about the anti-gravity aspects of the letter.

Could you provide a paragraph to deal with this side of things or recommend someone who could?

Happy to discuss

Many thanks

Section 40

In answer to his request for disclosure of extra terrestrial presence we presumably can give out standard line, open mind, could be explained away etc. In terms of his other question on what the US hold, could we just say that we have no information and he best direct his enquiries to the US authorities. We could take a view from PDRN just to ensure they're happy with that. If PDRN prefer, we could just say that we have no information and stop at that. I don't think we need answer any of the details he has about specific technologies.

Section 40 would you be happy with that approach as you'll be signing it off?
