From: J. Edgar Hoover, Director, Federal Bureau of Investigation

Subject: FLYING DISCS

[REDACTED]

October 20, 1950, he, his wife, and daughter, who reside at [REDACTED] New Haven, went out of their home into the back yard at approximately 6:15 p.m. His young daughter called his attention to a star which was moving, and Mr. [REDACTED] noted a sphere-like object directly overhead that gave a steady golden-orange glow. He stated that this object was very high, being between ten to twenty thousand feet high, possibly higher. The glow given off was very steady, not blinking, and the whole sphere itself glowed in about the same consistency. He witnessed this object for approximately twenty seconds, during which time it traveled in a westerly direction toward New York City. It then veered in a southerly direction, as if crossing Long Island, or possibly in such a direction that it might have been traveling over Long Island. He lost sight of this object as it disappeared behind trees.

He advised the size of the object was approximately ten times the diameter of Venus, which was shining very brightly that night. He stated it was a very clear night and that all the stars in the sky were twinkling, as compared to the steadiness of the glow given off by this object. He advised that the object did not appear to diminish in size as it traveled farther away, but appeared to maintain about the same size as when he first

noticed it directly overhead. The same steady orange glow persisted during the entire time that he witnessed it. Although this object was actually cut from his sight by nearby trees, Mr. [REDACTED] stated that it was so far away at that time that he probably would have lost sight of it very shortly. The object made no sound whatsoever, and there seemed to be no attachments or projections of any kind. Mr. [REDACTED] stated the object was a complete circular ball. He had no idea as to the method of propulsion, but advised that at the time it seemed to change directions, probably over New York City, and that it seemed to back up and go forward, possibly two or three times, in order to execute a change of direction. There were no clouds in the sky which interfered with his vision, and he could not comment as to whether or not this object penetrated or circumvented clouds. The object left no trail of any kind, and Mr. [REDACTED] mathematically calculated its speed at between 400 and 700 miles per hour, depending on the height, which he stated he could not accurately compute. He advised that he could not recall any odors and had no idea as to the construction of the object.

To Mr. [REDACTED]'s knowledge, the only other persons in this area to have witnessed the object were his wife and daughter. Immediately upon sighting the object, Mrs. [REDACTED] ran to the door of neighbors occupying the same house as the [REDACTED] to bring them to the yard. However, these neighbors did not witness the object, since it disappeared before they got outside.

Mr. [REDACTED] stated that he is a Chemical Engineer and has fifteen years of experience in research and development. He is not a pilot, but has done considerable flying, and has also done considerable reading, including technical data concerning flying saucers and discs. He understands from reading the above matters that the star Venus is often mistaken by observers for flying saucers, and he pointed out that he feels that he is familiar with astronomy and did not confuse the object he saw with Venus, since he also recalled seeing Venus in the sky on that particular evening, and compared the size of this object as being ten times Venus' diameter. He also stated that he computed the speed at which this object was traveling by using points in his area, such as roof tops and tree tops, together with the distance he walked on the ground in order to keep the object in sight.

HEADQUARTERS UNITED STATES AIR FORCE  
WASHINGTON

THE INSPECTOR GENERAL USAF  
17TH DISTRICT OFFICE OF SPECIAL INVESTIGATIONS  
SANTO AIR FORCE BASE, NEW MEXICO

DR/MS

File No: (24-8)-28

25 May 1950

SUBJECT: Summary of Observations of Aerial Phenomena in the New Mexico Area, December 1948 - May 1950

TO: Brigadier General Joseph F. Carroll  
Director of Special Investigations  
Headquarters USAF  
Washington 25, D. C.

1. In a liaison meeting with other military and government intelligence and investigative agencies in December 1948, it was determined that the frequency of unexplained aerial phenomena in the New Mexico area was such that an organized plan of reporting these observations should be undertaken. The organization and physical location of units of this District were most suitable for collecting these data, therefore, since December 1948, this District has assumed the responsibility for collecting and reporting basic information with respect to aerial phenomena occurring in this general area. These reports have been distributed to the Air Materiel Command, USAF, in accordance with Air Intelligence Requirements No. 4, and to other interested military and government agencies.

2. There is attached, as a part of this summary, a compilation of aerial phenomena sightings that have occurred mostly in the New Mexico area and have been reported by this District Office subsequent to December 1948. This compilation of sightings is not a complete record of all reported observations, but includes only those in which sufficient information was available to justify their inclusion. The observers of these phenomena include scientists, Special Agents of the Office of Special Investigations (IG) USAF, airline pilots, military pilots, Los Alamos Security Inspectors, military personnel, and many other persons of various occupations whose reliability is not questioned. This compilation sets forth the most important characteristics with respect to each observation and evaluates each sighting into one of three classifications, (1) green fireball phenomenon, (2) disc or variation, and (3) probably meteoric.

3. There is also attached an analysis of the green fireball occurrences in this area made by Dr. Lincoln LaFaz. Dr. LaFaz is the

CONFIDENTIAL

Director of the Institute of Meteoritics and Head of the Department of Mathematics and Astronomy at the University of New Mexico. He was Research Mathematician at the New Mexico Proving Grounds under an OSRD appointment in 1943 and 1944, and Technical Director of the Operations Analysis Section, Headquarters, Second Air Force, 1944-45. Since 1948, Dr. LaPaz has served on a voluntary basis as consultant for this District in connection with the green fireball investigations.

4. On 17 February 1949 and again on 14 October 1949, conferences were held at Los Alamos, New Mexico, for the purpose of discussing the green fireball phenomena. Representatives of the following organizations were present at these meetings: Fourth Army, Armed Forces Special Weapons Project, University of New Mexico, Federal Bureau of Investigation, U. S. Atomic Energy Commission, University of California, U. S. Air Force Scientific Advisory Board, Geophysical Research Division Air Materiel Command USAF, and the Office of Special Investigations (IG) USAF. A logical explanation was not proffered with respect to the origin of the green fireballs. It was, however, generally concluded that the phenomena existed and that they should be studied scientifically until these occurrences have been satisfactorily explained. Further, that the continued occurrence of unexplained phenomena of this nature in the vicinity of sensitive installations is cause for concern.

5. The Geophysical Research Division, Air Materiel Command, Cambridge, Massachusetts, has recently let a contract to Land-Air, Inc., Holloman AFB, Alamogordo, New Mexico, for a limited scientific study of green fireballs. The results of this scientific approach to the problem will undoubtedly be of great value in determining the origin of these phenomena.

6. This summary of observations of aerial phenomena has been prepared for the purpose of re-emphasizing and reiterating the fact that phenomena have continuously occurred in the New Mexico skies during the past 18 months and are continuing to occur, and, secondly, that these phenomena are occurring in the vicinity of sensitive military and government installations.

*CONFIDENTIAL*

The matter of flying saucers was discussed by Special Agent [redacted] with Major General Joseph F. Carroll of OSI on October 16, 1950, at which time General Carroll advised that insofar as he has been able to determine the Air Force is not working on any type of "flying saucer" or "flying disk". General Carroll stated that the Air Force is working on high altitude rockets and jet aircraft. He stated these experiments may account for some of the reports concerning flying saucers but that the Air Force is not apparently working on anything which is the cause of the many flying saucers reports. He stated that the Air Force program for investigating reports concerning flying saucers, etc., has been reinstated at Wright Field and that any pertinent information of interest coming to his attention will be furnished to the Bureau.

RECOMMENDATION:

The foregoing is for your information.

(SAUCER)           

DENVER--A CONSTRUCTION WORKER AT LOS ALAMOS, N.M., HAS REPORTED THAT A STRANGE "BLINKING OBJECT" SOARED OVER A HIGHLY RESTRICTED AREA OF THE BIG ATOMIC ENERGY CENTER.

LEE ROBINSON OF THE ARMEX CONSTRUCTION COMPANY SENT THE DENVER POST A COPY OF A MIMEOGRAPHED FORM WHICH HE USED TO REPORT THE OBJECT TO THE AEC.

THE FORMS ARE PREPARED BY THE AEC FOR "REPORTS OF UNIDENTIFIED AERIAL OBJECTS AT LOS ALAMOS."

THE ORIGINAL THREE-PAGE REPORT, ROBINSON SAID, WAS SUBMITTED TO THE ATOMIC ENERGY SECURITY SERVICE SEPT. 12., THE DAY ROBINSON AND EIGHT OTHER EMPLOYEES OF THE ARMEX COMPANY SAY THEY SAW THE OBJECT.

ROBINSON SAID HE AND THE OTHERS WERE EATING LUNCH WHEN THE UNIDENTIFIED OBJECT PASSED OVER. HE SAID IT "WAS NOT A BALLOON OR A CONVENTIONAL TYPE OF AIRCRAFT."

ROBINSON SAID THE OBJECT APPEARED TO BE AT AN ALTITUDE OF ABOUT 20,00 FEET. IT ALTERNATELY FLASHED BRIGHT AND BLACK AT INTERVALS OF TWO SECONDS, HE SAID, AND WAS VISIBLE FOR THREE MINUTES AND 40 SECONDS.

THE SPECIALLY MIMEOGRAPHED FORMS INDICATED THE AEC IS HIGHLY CONCERNED WITH UNIDENTIFIED AERIAL OBJECTS OVER THE PROJECT. THE FORMS CONTAIN SPACES FOR INFORMANTS TO REPORT ON LUMINOUSITY OF OBJECT, APPARENT MEANS OF SUPPORT AND PROPULSION AND "ODOR" OF THE OBJECT.

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI  
FROM : SAC, NEW HAVEN  
SUBJECT: FLYING DISCS

DATE: November 9, 1950

INFORMANT

The following is being brought to the attention of the Bureau so that it may be referred to the Department of the Air Force in connection with instructions set forth in SAC Letter No. 38, Series 1949, dated March 25, 1949.

Mr. [REDACTED] Avenue, New Haven, was interviewed in connection with other official business and furnished the following information:

He advised that on Friday, October 20, 1950, he and his wife and daughter, who reside at [REDACTED] New Haven, went out of the back door of their home to the back yard at approximately 6:15 P.M. His little daughter called his attention to a star in the sky that was moving and Mr. [REDACTED] noted a sphere-like object directly overhead which gave a steady golden orange glow. He stated that this object was very high between ten to twenty thousand feet, possibly higher. The glow given off was very steady and not blinking and the whole sphere itself glowed in about the same consistency. He witnessed this object for approximately twenty seconds during which time it traveled in a westerly direction toward New York City and then when Mr. [REDACTED] believed that possibly it was near or over New York City, it then veered in a southerly direction as if crossing Long Island or possibly in such a direction that it might have been traveling over Long Island. He lost sight of this object as it disappeared behind trees in his vicinity. He advised that as to the size of the object, it was approximately ten times the diameter of Venus, which was shining very brightly that night. He states it was a very clear night and that all the stars in the sky were twinkling as compared to the steadiness of the glow given off by this object. He advised that the object did not appear to diminish in size as it traveled farther away from him but appeared to maintain about the same size as when he first noticed it directly overhead. The same steady orange glow persisted during the entire time that he witnessed it. Although this object was actually cut from his sight by nearby trees, Mr. [REDACTED] states that it was so far away from him any way that he probably would have lost sight of it very shortly due to distance had the trees not intervened. The object made no sound whatsoever

and there seemed to be no attachments or projections of any kind, just a complete circular ball. He had no idea as to the method of propulsion but advised that at the time it seemed to change directions, probably over New York City, that it had seemed to back up and go forward, possibly two or three times in order to execute a change of direction. There were no clouds in the sky that interfered with his vision of this object and he could not comment as to whether or not this object penetrated or circumvented clouds. The object left no trail of any kind and Mr. [REDACTED] mathematically calculated its speed at between four hundred and seven hundred miles per hour, depending on the height which he stated he could not accurately compute. He advised that he could not recall any odors and had no idea as to its construction. To his knowledge the only other persons in this area to have witnessed this object were his wife and daughter. Immediately upon sighting the object, his wife ran to the door of neighbors occupying the same house as the [REDACTED] to bring them to the yard. However, these neighbors had not witnessed the object as by the time they got outside the object had disappeared.

Mr. [REDACTED] stated that he is a Chemical Engineer, has fifteen years of experience in research and development. He is not a pilot but has done considerable flying and has also done considerable reading, including technical data concerning flying saucers and discs. He understands from reading the above matters that the star Venus is often mistaken by observers for flying saucers and he pointed out that he feels that he is familiar with astronomy not to confuse the object he saw with Venus as he also recalls Venus in the sky on that particular evening and compared the size of this object as being ten times Venus' diameter. He also states that he computed the speed at which this object was traveling by using points in his area, such as, roof tops and tree tops together with the distance he walked on the ground in order to keep the object in sight.

Mr. [REDACTED] was advised that the Bureau would turn this information over to another agency and indicated that this was according to his approval. He specifically requested that no public announcement or comment be given to the fact that he had reported seeing the above object. Mr. [REDACTED] appeared to be a very reliable and sincere individual and evidences considerable technical knowledge and experience in reporting the above incident.

Also Air Comd reports military jet pilots vic Fairbanks while over Weeks International Field at an altitude of 8000 feet observed a flash of light, yellow in color at an altitude between 25,000 and 30,000 feet. Horizontal distance to object was aprx 50 miles. Soon after flash a dark brown smoke appeared to rise or climb at an angle of 40 degrees. At the leading edge of the smoke at aprx 100 feet appeared an object either cigar shaped or a fuselage without wings travelling at terrific speed. Pilots started pursuit on heading of 210 degrees mag, indicating 380 at every steep climb. Pursuit continued until pilots reached village of clear and lost sight of object. Meantime object gained altitude and speed and disappeared because of distance of aprx 50 to 55,000 feet. Color of smoke brown, color of object dark and no reflection from sunlight. Pilots assured of shape because of perfect silhouette against the sun. One pilot had object in view aprx 4 1/2 mins. First sighted at 150026Z. Coordinates 64 degs 13 mins North, 149 degs 30 mins West. LCC info will be fwd when obtained.

Subj: Anomalous Luminous Phenomena (Seventh Report)

May 25, 1950

to move horizontally. However, a strictly vertical infall is also very rarely observed in the case of genuine meteor falls.

3. An analysis just completed of the time distribution of the green fireballs so far observed permits us to add an 11th item to the list of differences given in paragraph 1 above. The graph of frequency versus local time which accompanies the present report shows that the maximum frequency of sighting of green fireballs (occurring at approximately 2030) coincides in time with neither the frequency maximum for ordinary meteors (occurring at approximately 0300) nor the frequency maximum for meteorite falls (occurring at approximately 1600).

4. Inspection of the graph referred to in paragraph 3 also will show that most of the green fireballs have been sighted in a time interval extending from about 5 p.m. to 11 p.m. (MST). This concentration might be even more pronounced if it were possible to screen out of the secondary maximum, around 2 a.m. (MST), all ordinary meteors which have been mistakenly identified as green fireballs. That such misidentification has occurred is strongly suggested by the near coincidence in time of the secondary maximum of the green fireballs and the well established early morning maximum of the ordinary meteors.

5. Some significance may attach to the fact that the time interval alluded to in paragraph 4 extends from about 7 a.m. to 1 p.m. in the Ural region of the USSR. Since missiles moving with velocities of the order of those found for the green fireballs for which real path determinations have been possible would travel from the southern Urals to New Mexico in less than 15 minutes, a possible interpretation of the concentration of sightings referred to in paragraph 4 is that the green fireballs result from guided missiles launched from bases in the Urals in the morning hours before cloudiness due to convection or blinding afternoon dust storms can interfere with non-radar tracking, such as has been used by the Optical Trajectory Section at White Sands Proving Ground.

6. There is also a pronounced concentration of green fireball incidents on the four days, Friday, Saturday, Sunday, Monday, almost all of the most widely observed incidents having occurred on Saturday or Sunday.

7. It is a curious and fairly well-established fact that there has been a distinct decline in the number of green fireball sightings during the last two months, within which the number of so-called "flying saucer" incidents in this region has attained an all-time high.

8. Although I have recently received from Dr. Joseph Kaplan of the Scientific Advisory Board a letter containing the statement "Frankly, I don't know of any U. S. experiments that would result in the appearance of these unconventional objects, and neither does Von Karman". I still

~~CONFIDENTIAL~~

To: Lt. Colonel Northrop - "Top Secret"  
Subj: Anomalous Incidents (Green Fireballs) (General Report) May 28, 1950

consider the most probable explanation of the green fireballs to be the one given in the first of the three paragraphs below which are quoted from my letter of 1949, February 20, to Dr. A. L. Evelyn, Chief Atmospheric Physics Laboratory, Base Directorate for Geophysical Research. The last two paragraphs quoted below will summarize my recommendations concerning the green fireball problem:

"As a preliminary to setting down the proposed recommendations which you requested, I have very carefully reviewed all available fireball data (observers' reports, transit measurements, calculated real paths, etc.) covering incidents from those of December 5, 1948 to the extraordinary incident of February 7, 1950, which has been under intensive investigation for the last two weeks. As a result of this comprehensive review, particularly as it relates to the incident of February 7, 1950, I feel compelled to write you in somewhat different terms concerning my own part in the proposed fireball project than I had in mind when we last discussed this matter. In brief, I have come to the conclusion that, on the basis of the evidence now available to me, I would not be justified in recommending a fireball project. In my opinion, this evidence proves conclusively that the fireballs reported on fall into one of two categories: Those of the first category (the majority) are meteorite falls of unusual, but certainly not of impossible, magnitude, frequency and other characteristics; those of the second category (the minority) are U. S. guided missiles undergoing tests in the neighborhoods of the sensitive installations they are designed to defend. This interpretation of the latter category is the one that I proposed in answer to a question raised by Dr. Keller at the first Los Alamos conference on February 17, 1949. It was not taken seriously then and I doubt that it will be taken seriously at the present time. However, even if my interpretation of the unconventional fireballs is the correct one, it is obvious that those in position to confirm it should refuse to do so."

"Only one other point need be stressed, namely, that if I am wrong in interpreting the guided missiles as of U. S. origin, then certainly intensive, systematic investigation of these objects should not be delayed until the termination of the present academic year. Recent international developments compel one to sense the imperative necessity of immediate investigation of the unconventional green fireballs, in case you are in possession of information proving that they are not U. S. missiles."

"If such an immediate investigation were to be undertaken, I would recommend that Dr. Fred L. Whipple, of Harvard College Observatory, be placed in charge of the photographic phase of the investigation; that Dr. Peter G. Gillman, of the Dominion Observatory, be placed in charge of the spectrographic phase of the investigation;

To: Lt. Colonel Doyle Nees - 100-5  
Subj: Anomalous Luminous Phenomena (General Report) May 23, 1950

that Dr. L. A. Manning, of Stanford, and Dr. Hillman be placed in charge of the radar investigation; and, finally, that Dr. William Crozier, of the New Mexico School of Mines, be placed in charge of dust collection and identification. On the basis of many intensive field surveys, I do not anticipate that ground search will lead to any recoveries, but in case such ground search is to be attempted, it should be carried out on the scale stressed in my conversations with you and Major Oder last month."

9. Although the above paragraphs were written some months ago, the recommendations contained in them are the ones I would urge you to consider at the present time. In conclusion, I should like to repeat the offer made at the end of my letter of February 20 to Dr. Wyckoff, namely to serve, if needed, as consultant on the green fireball project as suggested in Major Oder's letter to me under date of November 29, 1949, with the stipulation, however, that my service be on a voluntary basis rather than on the \$40 per day contract specified in Major Oder's letter.

There is being submitted herewith a copy of two reports made by District Representative of the OSI, 8th District, U. S. Air Force, with regard to the detection of unidentified objects by the means of radar, as set forth in referenced teletype. These reports continue to set forth additional reports concerning unidentified objects in the air space area over Oak Ridge, Tennessee, which to date have not been explained.

No investigation is being conducted by the Knoxville Office in this matter, but any further information received from OSI or from CIC representatives will be forwarded immediately.

my theory of the flying saucer is:

It gets its power from electricity generated by a gen generator, the generator is run from a revolving disc, therefore giving the flying saucer a disc like appearance.

By the use of gears the revolving disc is able to generate 10 or 20 times more power than is needed.

The faster the disc goes, the more power. By use of the new light weight electric motors, there is less weight, and less space taken.

The revolving disc is in side of a light shell. Forward motion of ships allows disc to revolve, generating electric power.

This way, the flying disc could fly almost any length of time.

Compressed air could be used to start

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: October 2, 1950

FROM : SAC, PHILADELPHIA

ATTENTION: MR. [REDACTED]

SUBJECT: FLYING DISC REPORTED AT PHILADELPHIA ON 9/26/50

*B&C*  
*OK*  
FLYING SAUCERS

During the late evening hours of September 26, 1950, two Philadelphia police officers observed a peculiar phenomenon on Vane Boulevard near 26th Street when they saw a round object about six feet in circumference slowly float down to the ground.

The object had the appearance of a parachute and landed in a field, it being so light it did not even depress the weeds in the field. The object was lavender in color, described by the officers as dewy, sort of like soap suds, and evaporating within fifteen or twenty minutes after it landed. When touched by the officers, the substance composing the object disappeared, leaving nothing but a slight sticky substance.

This matter was reported to this office by the Philadelphia Police and for that matter, was subsequently carried in the Philadelphia press as "Flying Saucer Just Dissolves". *over*

Mr. [REDACTED] of the Bureau was telephonically advised of the above by this office and issued instructions that the matter should be referred to Air Force Intelligence for handling and any investigation. Accordingly, Major [REDACTED] of the Philadelphia Office of OSI was telephonically advised of the above and no further action was taken by this office.

Office Memorandum • UNITED STATES GOVERNMENT

TO : THE DIRECTOR  
FROM : MR. D. M. LADD  
SUBJECT: FLYING SAUCERS  
FLYING DISCS  
GREEN FIREBALLS

DATE: October 9, 1950

PURPOSE

To advise you of the most recent information known to the Bureau concerning the captioned aerial phenomena.

BACKGROUND

You will recall that on August 23, 1950, I furnished to you a memorandum regarding Project Twinkle set up by the Department of the Air Force, with the assistance of Land-Air, Inc., at Vaughn, New Mexico, for the purpose of obtaining data regarding these unusual aerial phenomena which had been seen in the vicinity of sensitive installations in New Mexico. To date the Air Force has not advised us of any new developments in connection with this project.

[REDACTED] has been contacted by the Albuquerque Office and arrangements have been made in order that the Bureau will be advised in the event any information relative to these phenomena indicates any jurisdiction on the part of the Bureau.

According to Bureau files, an average of approximately three or four complaints have been received per month from June through September. These complaints were brought to the attention of OSI. A review of Bureau files does not indicate that there has been any increase in the sightings of these phenomena during or as a result of the war in Korea.

JURISDICTION FOR INVESTIGATION OF THESE PHENOMENA

You will recall the investigation to obtain information concerning these aerial phenomena is the jurisdiction of the Department of the Air Force. The Department of the Air Force is aware of our jurisdiction in matters relating to espionage, sabotage and internal security, and we have contacted OSI and requested them to advise us of any developments in connection with these phenomena which would be of interest to us as a result of our jurisdiction.

OCT 10 1950

62 OCT 16 1950

Handwritten initials and marks at the bottom right of the page.

POSSIBLE ORIGIN OF THESE AERIAL PHENOMENA

The Bureau has been advised in the past by OSI that many of the sightings reported to them were determined by investigation to have been of weather balloons, falling stars, meteorological phenomena and other air-borne objects.

INFORMATION OBTAINED BY BUREAU LIAISON FROM OSI, WASHINGTON, D. C.  
RE THE CAPTIONED MATTERS ON OCTOBER 9, 1950.

Bureau liaison determined on the morning of October 9, 1950 from OSI headquarters that the investigations of these aerial phenomena are being handled by OSI, Wright Field, Ohio. Their investigation of these phenomena fails to indicate that the sightings involved space ships or missiles from any other planet or country.

According to OSI, the complaints received by them have failed to indicate any definite pattern of activity. OSI further advised they are closely following the investigation of the captioned matters, and they will advise this Bureau of any matters of interest.

ACTION

None. The above is for your information.

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS UNITED STATES AIR FORCE  
WASHINGTON 25, D. C.

AFOIC-CC-1

8 September 1950

SUBJECT: Reporting of Information on Unconventional Aircraft

TO: Commanding Generals, Major Air Commands, 21 and Overseas  
All United States Air Attaches

1. The United States Air Force has a continuing requirement for the reporting and technical analysis of observations of unconventional aircraft which might indicate an advance in technological progress of a foreign power. An unconventional aircraft, within the meaning of this directive, is defined as any aircraft or airborne object which by performance, aerodynamic characteristics, or unusual features, does not conform to any presently known aircraft type.

2. It is desired that information on unconventional aircraft be reported in the following manner:

a. A separate report of each incident will be forwarded. No information other than that bearing on the unconventional aircraft will be included in this report.

b. Priority of transmission accorded the report will be that appropriate in the judgment of the forwarding agency, according to its apparent authenticity and importance as intelligence.

c. Reports will be forwarded to Commanding General, Air Materiel Command, Attention: MCIS.

d. Reports forwarded by electrical transmission will include, as far as possible:

(1) A brief description of the object(s); its shape, size, color, number, formation if more than one, aerodynamic features, trail or exhaust, propulsion system, speed, sound, maneuvers, manner of disappearance, and other pertinent or unusual features.

(2) Time sighted in 24-hour clock zonal time, and length of time observed.

~~CONFIDENTIAL~~

ENCLOSURE

62-83894-249

Incl. 1

~~CONFIDENTIAL~~

- (3) Manner of observation; visual or electronic, from air (give speed, altitude, and type of aircraft), or surface. Any type of optical or electronic equipment used should be described.
- (4) Location of observer during sighting, giving exact latitude and longitude as closely as feasible, and/or reference to a known landmark. Location of object(s) with respect to observer, giving distance, direction, and altitude.
- (5) Identifying information on observer(s) and witnesses, estimate of reliability and experience, and any factors bearing on estimated reliability of the sighting.
- (6) Weather and wind conditions (teletype sequences) at time and place of sightings.
- (7) Any activity or condition, meteorological or otherwise, which might account for the sighting.
- (8) Existence of any physical evidence; fragments, photographs and the like, of the sighting.
- (9) Interception or identification action taken. (Such action should be taken whenever feasible, complying with existing air defense directives.)

e. Reports forwarded by electrical transmission will be followed up within ten (10) days by a written report on AF Form 112. This report will contain the same information specified in subparagraph 2d above in greater detail, and where feasible will include sketches and signed attested narrative statements of observers.

f. Written reports of sightings, where no previous electrically transmitted report has been submitted, will follow the same form as the written follow-up report described in subparagraph 2e above.

g. Any physical evidence of the sighting will be forwarded by most expeditious means to Commanding General, Air Materiel Command, Attn: NCIS, under cover of a letter identifying the shipment with the report of sighting. Mention of the method and time of shipping of this evidence will be included in written report of the sighting.

3. It is desired that no publicity be given this reporting or analysis activity.

G. I. R. - 1

SAC Cornelius of Philadelphia called at 10:45 A.M. today and stated that yesterday evening while two officers of the Philadelphia Police Department were cruising in their scout car they saw through the windshield an object descending slowly to the earth which appeared at first glance to be a parachute.

When the officers first noticed the object, it was at tree-top level and was described as being six feet in diameter. It landed in a field near-by and the officers, upon examining it, noted that it gave out a purplish glow which was almost a mist. The officers summoned two other police officers. After looking at the object for some time they attempted to pick it up. The object broke, leaving a slight odorless residue. Over a period of about 25 minutes which the officers spent watching the object it completely disintegrated. The officers further commented that the object was so light that when it hit the field, it did not even bend the weeds or the grass it fell on.

Mr. Cornelius said that he has called the local office of the Air Force but the individual with whom he spoke there said he knew nothing about them and was not aware that his office was looking into reports of this type.

Mr. Cornelius desired to know what further action should be taken by him.

I told Mr. Cornelius that he was correct in referring this matter to the local office of OSI and that he should direct a letter to the Bureau incorporating all available information concerning the matter and that we here, upon its receipt, in turn would bring it to the attention of OSI Headquarters.

PURPOSE

To advise that: (1) OSI has expressed concern in connection with the continued appearance of unexplained phenomena described as green fireballs, discs and meteors in the vicinity of sensitive installations in New Mexico. (2) [redacted] of the University of New Mexico, reported that the phenomena does not appear to be of meteoric origin. (3) OSI has contracted with [redacted], Alamogordo, New Mexico, to make scientific study of the unexplained phenomena.

NATURE OF PHENOMENA

Observations of aerial phenomena occurring within the vicinity of sensitive installations have been recorded by the Air Force since December, 1948. The phenomena have been classified into 3 general types which are identified as follows:

- 1. Green fireballs, objects moving at high speed in shapes resembling half moons, circles and discs emitting green light.
- 2. Discs, round flat shaped objects or phenomena moving at fast velocity and emitting a brilliant white light or reflected light.
- 3. Meteors, aerial phenomena resembling meteoric material moving at high velocity and varying in color.

The above phenomena have been reported to vary in color from brilliant, white to amber, red and green.

Since 1948, approximately 150 observations of aerial phenomena referred to above have been recorded in the vicinity of installations in New Mexico. A number of observations have been reported by different reliable individuals at approximately the same time.

## RESULTS OF AN INQUIRY BY

University of New Mexico, submitted an analysis of the various observations on May 23, 1950. He concluded, as a result of his investigation, that approximately half of the phenomena recorded were of meteoric origin. The other phenomena commonly referred to as green fireballs or discs he believed to be U.S. guided missiles being tested in the neighborhood of the installations. [redacted] pointed out that if he were wrong in interpreting the phenomena as originating with U.S. guided missiles that a systematic investigation of the observations should be made immediately. [redacted] pointed out that missiles moving with the velocities of the order of those found for the green fireballs and discs could travel from the Ural region of the USSR to New Mexico in less than 15 minutes. He suggested that the observations might be of guided missiles launched from bases in the Urals.

On the basis of the investigations made by [redacted] and the Air Force, it was concluded that the occurrence of the unexplained phenomena in the vicinity of sensitive installations was a cause for concern. The Air Force entered into a contract with [redacted], Alamogordo, New Mexico, for the purpose of making scientific studies of the green fireballs and discs. It was pointed out in the summary furnished by OSI on July 19, 1950, that the unexplained green fireballs and discs are still observed in the vicinity of sensitive military and Government installations.

## RESULTS OF AIR FORCE INVESTIGATION

The Air Force together with [redacted] have established a number of observation posts in the vicinity of Vaughn, New Mexico, for the purpose of photographing and determining the speed, height and nature of the unusual phenomena referred to as green fireballs and discs. On May 24, 1950, personnel of [redacted] sighted 8 to 10 objects of aerial phenomena. A 24-hour day watch is being maintained and has been designated "Project Twinkle."

CONCLUSIONS

The Albuquerque Office, in a letter dated August 10, 1950, advised that there have been no new developments in connection with the efforts to ascertain the identity of the strange aerial phenomena referred to as green fireballs and discs. The Albuquerque Office advised that Dr. [REDACTED] Project Engineer, had been informed of the Bureau's jurisdiction relative to espionage and sabotage and arrangements have been made so that the Bureau will be promptly advised in the event additional information relative to this project indicates any jurisdiction on the part of the Bureau.

ACTION

None. The above is for your information.

Sighting No. 175

Photograph of Unknown Aerial Phenomena taken at Datil, New Mexico by Col Lertis L. Stanfield, Holloman Air Force Base, New Mexico on 24 and 25 Feb 1950. An analysis of the above photograph was made by Dr. Lincoln LaPaz, Head of the Institute of Meteoritics, University of New Mexico, Albuquerque, New Mexico, who reached the following conclusions:

- a. The angular diameter of the perfectly round luminous object Stanfield observed was approximately  $1/4$  of a degree.
- b. The angular velocity of the object in the sky was greater than half a degree per minute.

Dr. LaPaz stated that on the basis of the results (a) and (b) above, the object seen by Stanfield was not the moon (for the angular diameter is too small), it was not Venus or any other planet (for the angular diameter was too large), and it was not a bright fixed star slightly out of focus (for the observed rate of motion is double that due to the diurnal rotation of the earth).

THE UNIVERSITY OF NEW MEXICO  
ALBUQUERQUE

INSTITUTE OF METEORITICS

May 23, 1950

To: Lt. Colonel Doyle Rees, Commanding Officer  
17th District, O. S. I.

From: Lincoln LaPaz, Director  
Institute of Meteoritics

Subject: Anomalous Luminous Phenomena (Seventh Report)

1. In the second report of this series, dated 1948, December 20, the writer listed ten significant differences between the bright green horizontally-moving fireballs observed in the interval 1948, December 5-20, and typical meteors. These differences were the following:

(1) The horizontal nature of the paths of most of the December fireballs is most unusual. Genuine meteors are rarely observed to move in horizontal paths.

(2) Again the very low height of the December fireball discussed in section 2 above sets it off in sharp contrast from the genuine meteors for which heights of the order of 40 or more miles are normally observed.

(3) The velocity determined for the fireball of December 12 is much less than the velocities determined from typical meteors (and yet is considerably greater than the speeds of the V-2 Rockets or jet planes or of conventional flares).

(4) In the case of meteorites that penetrate to as low levels as that determined for the fireball of December 12, the observed luminous phenomena are always accompanied by very violent noises. No noises whatever have been observed in connection with the various December fireballs so far investigated. (Note added on 1950, May 23: Possible exceptions to the noiselessness of green fireballs are the incidents of 1949, January 30, and 1949, December 4.)

(5) Genuine meteors normally show remarkable variations in brightness, beginning as fine thin hair lines, which are scarcely visible to the observer, and then brightening up to flash out near the end of their paths. In the case of the December fireballs most of the observers have reported that the green balls appeared almost instantly at their full brightness.

~~CONFIDENTIAL~~

To: Lt. Colonel Boyle Rees - Page 2

Subj: Anomalous Luminous Phenomena (Seventh Report) May 25, 1950

(6) In the case of genuine meteors the paths are directed toward all points of the compass with equal frequency. On the contrary in the case of the green fireballs, plots of admissible approach sectors show that there is a very pronounced tendency for the paths to come in from the north half of the sky.

(7) The three groups of anomalous greenish luminous phenomena show a curious association with well known meteor showers, although none of these meteor showers normally produce extremely bright green fireballs, such as those recently observed. For example, the observation mentioned by Dr. Vonnig appeared near the maximum of the Quadrantid shower of early January, Dr. McCullough's observation of August was near the time of the Persid shower and the December observations all fell in the interval covered by the Geminid shower. This relationship might indicate an attempt to render the green fireballs less conspicuous by causing them to appear only when there is considerable meteoric activity.

(8) As noted in an earlier communication, the remarkably vivid green color reported for most of the December fireballs is rarely observed in the case of genuine meteors. By laboratory test this peculiar color seems to be identical with that given off by copper salts in the blowpipe flame. If this identification is correct, the wave length of the radiation from the green fireballs is near  $\lambda = 5212\text{\AA}$ .

(9) The duration estimates of between 2 and 3 seconds reported for the green fireballs are considerably longer than those (0.1 - 0.5 seconds) for the ordinary visual meteors, but shorter than the duration estimates invariably reported in the case of a genuine meteorite fall (5 to 30 seconds or even longer).

(10) For none of the green fireballs has a train of sparks or a dust cloud been reported. This contrasts sharply with the behavior noted in case of meteoric fireballs--particularly those that penetrate to the very low levels where the green fireball of December 12 was observed.

2. In the year and a half since this list was prepared, many additional observations have been made, the total number of objects now accepted as belonging in the green fireball category being 72. (Although this number constitutes nearly 50% of the incidents listed in the accompanying Summary, it constitutes less than 5% of the total number of unscreened observations reported to the writer.) Critical analysis of all green fireball reports now available shows that only one of the statements in the list given in paragraph 1 needs to be modified, namely, item (1). Within the last year, a considerable number of the green fireballs have appeared to fall vertically downward rather than

EX-112

Dear Mr. [Redacted]

I sincerely appreciate the interest which prompted your letter of June 21, 1954; however, I am not in a position, as a matter of policy, to comment regarding the book you mentioned since it does not deal with a matter within the jurisdiction of the FBI.

It is suggested that you consider the advisability of communicating with The Honorable, The Secretary of the Air Force, The Pentagon, Washington 25, D. C., for whatever information he can give you along the lines of your inquiries.

Sincerely yours,

John Edgar Hoover  
Director

6/21/54

Gentlemen:

A book was published in 1953 by  
Donald Leslie and George Adamski

"Flying Saucers Have Landed"

Publishers - The British Book Centre,  
New York City.

Is this book fact or fiction, are there  
Flying Saucers from other planets landing  
on the earth? Has the story told by George  
Adamski about his contact with the men from  
Venus any foundation in fact?

Please answer, many thanks,

  
Chicago 30, Illinois.

MISCELLANEOUS - INFORMATION CONCERNING  
(ESPIONAGE)

EX-122

Reurlet 6/8/54.

You are instructed to recontact [redacted], referred to in your referenced letter and advise him this Bureau has no jurisdiction concerning the investigation of matters relating to flying discs and that the United States Air Force has such jurisdiction. You are instructed to advise him this Bureau cannot approve or disapprove of his activities in connection with this matter and that the placing of this Bureau on notice as to his activities will not exonerate him in the event he engages in any fraudulent or criminal activities.

You are instructed to furnish the information set forth in your referenced letter to OSI locally and to the Bureau in a memorandum suitable for dissemination to OSI headquarters.

NOTE: [redacted] Cincinnati, Ohio, advised the Cincinnati office he is interested in flying discs and has recently met several persons who claimed to have had experiences with flying discs. He stated he intended to assist such persons in arranging for public meeting in Cincinnati, at which matters relating to flying discs will be discussed and that he expects the meeting will result in a "four thousand dollar take." He advised he believed the experiences alleged by the persons referred to above and that those persons would participate in the meeting. He stated he had been advised by the Air Force that it was its opinion claims made by the persons referred to above concerning flying discs and their experiences with same were fraudulent. He stated he wanted to put all federal agencies on notice in order that they could act to prevent the planned meeting re flying discs if it was deemed necessary by the Government.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: 6-8-54

FROM : SAC, Cincinnati (100-C)

SUBJECT: [REDACTED]  
FLYING DISCS  
INFORMATION CONCERNING

On 6-7-54, [REDACTED] Cincinnati 23, Ohio, and Mr. [REDACTED] Cincinnati 12, Ohio, called at this office. Mr. [REDACTED] advised he is the operator of a beauty salon in the [REDACTED] Cincinnati, and Mr. [REDACTED] advised he is President of the [REDACTED] in Cincinnati. Mr. [REDACTED] did all the talking for the two men and he furnished the following information:

On 6-3-54 an ad appeared in the "Cincinnati Enquirer," a newspaper of general circulation, Cincinnati, Ohio, to the effect that on 6-11-54 a program would be presented at Taft Auditorium, Cincinnati, Ohio, on "The Real Flying Saucer Story." The advertisement which Mr. [REDACTED] exhibited disclosed no sponsor for this program and it was only noted on the ad that tickets for the program sold for \$2.00 per person and would be on sale at the Central Ticket Office in Cincinnati.

Mr. [REDACTED] advised that although he belongs to no organization interested in flying saucers, he has been interested in this subject and has been interested to the extent that he desired to know the sponsorship of the program. He stated that he found out from the Central Ticket Office that the ad had been placed by [REDACTED] Ferndale 20, Michigan. He advised that he telephonically contacted [REDACTED] on 6-3-54 and [REDACTED] stated that he was only the agent for renting the hall and that he was acting on behalf of [REDACTED] and [REDACTED]. He stated that on 6-4-54 [REDACTED] called him back and told him that there had been a disagreement between [REDACTED] and [REDACTED] over [REDACTED] arrangements for the sale of tickets for the program and the renting of the hall.

[REDACTED] advised that at this time [REDACTED] said nothing to discredit either [REDACTED] or [REDACTED] and indicated that their disagreement only concerned his placing the ad in the newspaper prior to having the tickets for the program available in Cincinnati.

INT. SEC. [REDACTED]

Letter to Director  
June 8, 1954

██████████ continued that ten minutes after he had talked to ██████████ on Friday, 6-4-54, he received a call from ██████████ and a Mr. ██████████ who confirmed to him that ██████████ was no longer associated with them, and who asked that ██████████ meet with them at a luncheon at the Terrace Plaza Hotel on 6-7-54.

Mr. ██████████, in explanation of his interest in this matter, advised that he had read such books as "Flying Saucers From Outer Space," written by DONALD E. KEHOE, retired major, U. S. Marine Corps, which book was published by Harper's Publishers, and a book entitled "Flying Saucers Have Landed," by GEORGE ADAMSKI, which book is published by Werner-Lowery Company in England, and is distributed by the British Book Center in New York City. He said that he has also heard broadcasts by persons he considers reputable news commentators, such as WALTER WINCHELL, FULTON LEWIS, JR., and FRANK EDWARDS, to the effect that reliable persons have reported observing flying discs or saucers. He said contrary to these reports, the U. S. Air Force has denied the existence of the flying saucer and he felt that persons such as ██████████ and ██████████ in presenting a program such as that contemplated, were either truthful or they were frauds. He stated that if they had a true story to tell, then he felt it was of such nature that it should be given as wide a distribution as possible, so that the people might learn the true facts regarding flying discs. He said, however, if their story was not true, then the holding of such a meeting as was contemplated would be a fraud on the general public. He estimated that such a meeting in Cincinnati might draw two thousand people, which, at \$2.00 apiece, would result in a \$4,000.00 take for the promoters.

To identify ██████████ ██████████ had with him two copies of the magazine "Valor," which he stated he got from ██████████, this magazine being self-identified as the "Golden Times Weekly," published by Soul Craft Chapels, Post Office Box 192, Noblesville, Indiana. The two issues which Mr. ██████████ had with him were numbers 15 and 16 of volume 6 of the publication, the number 15 being dated 2-6-54 and number 16 being dated 2-13-54. The number 15 issue contained an article concerning ██████████ in which he is identified as a truck driver from Redondo Beach, California, and it refers to an article dated 12-31-53, which appeared in the "Daily Breeze," a newspaper at Redondo Beach, California, which allegedly contained a description of an encounter

Letter to Director  
June 8, 1954

which [redacted] had with a crew of assumed space explorers under the supervision of a ravishing woman commandant in the Nevada desert. The article also reflects that [redacted] allegedly was aboard flying saucers on eleven occasions. At the bottom of the first page of issue number 15 there appeared in what Mr. [redacted] stated was the handwriting of [redacted] the statement "This is a true story, a factual experience -- [redacted]"

The above mentioned article in "Valor" also reflected that [redacted] 55 years of age and that his residence address is [redacted], Redondo Beach, California.

Mr. [redacted] also had with him a letter addressed to [redacted] from [redacted] of the Saucers Research Foundation, which letter reflected that that organization was holding a three-day convention June 4, 5 and 6, 1954 at the Carthay Circle Theatre in Los Angeles, California, and that it had invited [redacted] to this convention to say a few words concerning his experience. [redacted] was identified in this letter as business manager of [redacted] Hollywood 10, California.

Mr. [redacted] reiterated that he felt [redacted]'s story, if true, should be given wide publicity, but that if the story was false, then he should be prosecuted for fraud. He stated that he first took his information to the Air Force in the person of Lieutenant Colonel [redacted] of Wright-Patterson Air Force Base, Ohio, whom [redacted] visited personally at [redacted] home in Fairborn, Ohio, on Sunday, 6-6-54. [redacted] indicated that he asked Colonel [redacted] if there were such things as flying saucers and if [redacted] story could be true, and he said [redacted] denied that there was such a thing as a flying saucer and indicated to him that DONALD E. KEHOE, the author of "Flying Saucers in Outer Space" was a fraud and that information is available in Washington that KEHOE is a fraud. He said he was advised, however, by [redacted] that the Air Force could take no action with respect to [redacted]

[redacted] continued that it was his intention to aid in the promotion of a meeting for [redacted] in Cincinnati. He advised that the original meeting scheduled for June 11 had been cancelled, and that he felt this meeting had such important information for the people as a whole that he was going to make every effort to make the meeting one of national

Letter to Director;  
June 8, 1954

significance. He said he intended to invite to the meeting all nationally prominent news commentators. He intended to try to get radio time to advertise the meeting but he did not wish to participate in this matter in any way if it would violate security regulations in any manner, or if [redacted] and his associates were in any way fraudulent. He stated that he so informed [redacted] at the luncheon meeting which was held at the Terrace Plaza Hotel on 6-7-54. They informed him that they were not afraid of an investigation; that [redacted] story was factual, and that they had no objection to [redacted] advising Government authorities regarding it.

Mr. [redacted] stated that his report to this office was part of his plan to inform all the Federal agencies he thought should know about the activities of [redacted]. He advised that in line with his contemplated plans that on the evening of 6-7-54 there was to be another meeting at the home of [redacted] Cincinnati 27, Ohio, at which meeting there would be Mr. [redacted], [redacted]. He said at this meeting they would plan a method of operation and make arrangements for this meeting of national significance. He said he intended to set the date of the meeting far enough in advance so that if any Governmental agency determined that there was fraud involved that agency would have sufficient time to act prior to the holding of the meeting. He advised he intended to keep a detailed record of all actions taken by this group, and that he would voluntarily furnish such information to the FBI.

[redacted] advised that he had not known and had not met either [redacted] or [redacted] prior to the events described above. He said that [redacted] identified himself as an archeologist and a writer for the magazine "Valor," who resides in Noblesville, Indiana.

He said that [redacted], whose first name he did not know, is also connected with "Valor" magazine in some way.

He was asked as to what interest "Valor" magazine has in [redacted], and whether [redacted] was sponsored by any other organization. He advised that he did not know the interest of "Valor" magazine in [redacted] and so far as he knew, [redacted] was acting on his own and had no organizational affiliations or sponsorship. He was asked as to what disposition would be made of receipts from a large meeting and he advised that he did not know what disposition would be made of the money. He said he understood that

Letter to Director;  
June 8, 1954

[REDACTED] had been on tour for some time and that the meeting scheduled for Cincinnati originally on 6-11-54 was to be the beginning of a new series of meetings.

The files of this office contain no information which can be identified with [REDACTED]

The indices reflect that by letter dated 2-7-52, Indianapolis file 61-5, the Indianapolis Office advised the Cincinnati Office under the caption of [REDACTED]"

[REDACTED], was at that time operating under the name of [REDACTED] with headquarters and printing facilities in Noblesville, Indiana.

With regard to [REDACTED] the indices of this office reflect that as of July, 1942, he was general manager of the [REDACTED] a mechanical packing firm at [REDACTED], Cincinnati.

No further action is being taken in this matter by this office, and the foregoing is for the Bureau's information and for the information of the Los Angeles and Indianapolis Offices.

DIRECTOR, FBI

6/18/54

SAC, SEATTLE

REPORTS ON ALLEGED SIGHTING OF SUBMARINES,  
PARACHUTE LANDINGS, FLASHING LIGHTS, ETC.  
ESPIONAGE

It has been the experience of this office that during this season, from now until winter, there is received a considerable number of alleged reports on sighting of submarines, flashing lights, parachute landings, flying saucers, etc. In every instance when such reports are received, the information is immediately disseminated to DIO, 13 ND, U. S. Navy; OSI, USAF; and R-3, U. S. Army.

Inasmuch as Seattle is the District Headquarters for the Intelligence Agencies in the Pacific Northwest, reports received, usually from the USCG, concerning incidents in the state of Oregon are immediately reported to that office as well as the Intelligence Agencies.

Many of the reports are of a nebulous type, impossible of corroborating, and of doubtful authenticity. Some, by preliminary inquiry and evaluation, prove to be without foundation. However, as stated above, reports of this type are immediately disseminated to the Intelligence Agencies without evaluation, followed by additional information as obtained.

This office has no control of the dissemination of these reports on a "spot" basis by the local intelligence offices to their Headquarters in Washington, D. C. The Bureau will recall the widespread dissemination given by the military agencies of "Radio Message March 13, 1953, Interpreted as Calling for Mobilization of Communist Party" (SAC Letter #23, dated 3/31/53).

The purpose of this letter is to advise the Bureau that in all instances immediate dissemination is made of all unusual incidents that appear to have any military significance. This office also acts as a coordinator on all reports to be certain that all interested agencies are cognizant.

The Bureau may be assured that it will be kept advised of all significant incidents as they arise but will not be bothered with every trivial incident that occurs unless instructed.

ESPIONAGE

SAC, SEATTLE  
6-18-54

OSI advises us that they have no interest whatsoever themselves in connection with these matters and that Operations of the Air Force doesn't even advise them. Colonel ██████████ District Commander, OSI, states that there is an evaluation at Wright-Patterson Field where the data is correlated, that the reports are handled from the Air Force here to that point in a routine fashion and that OSI gives no credence whatsoever to it because they have never had any previous experience of any kind as to anything arising out of the situation.

There is attached hereto a copy of a communication marked "CONFIDENTIAL" requesting data concerning the situation as well as several recent publications, some of which are issued by the Air Force itself. It is the opinion of Colonel ██████████ that the releases are a poor thing and create mass hysteria, but he says he has nothing whatsoever to do with the situation.

Hilton, Kentucky

Dear [Redacted]

Thank you very much for your letter of April 21, 1954.

Although I would like to be of assistance, it is not possible for me to express an opinion regarding the subject you mentioned since it does not relate to a matter within the jurisdiction of the FBI.

You may desire, however, to communicate with The Honorable, The Secretary of the Air Force, The Pentagon, Washington 25, D. C., for whatever information he can give you.

Sincerely yours,

J. Edgar Hoover

John Edgar Hoover  
Director

NOTE: First name salutation is being used since the correspondent indicates she is a seventh grade student. She requested the Director's opinion regarding Flying Saucers.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: 4/12/54

FROM : SAC, Newark (62-0)

SUBJECT: INFORMATION REGARDING NEW  
PRINCIPLES OF AERO-DYNAMICS  
ALOIS PIVEC - INFORMANT

Enclosed herewith are photostats of parts of two letters furnished by [redacted] and his wife, [redacted], both of [redacted] East Orange, NJ.

Both photostats are in German and concern the development of a new principle in aero-dynamics and alleged attempts by the Communists in Austria to obtain this information.

There is also enclosed a blind memo, setting forth the summary of the information in the letters and the circumstances under which they were obtained.

This information is being furnished to the Bureau for whatever action is deemed appropriate.

The indices of the Newark Office are negative regarding [redacted]

TRANSLATION FROM GERMAN

Item #1

12-21-53

[REDACTED]  
New Jersey, U. S. A.

Dear Mr. [REDACTED]

Your brother will probably have communicated with you about me as we became acquainted with each other at a construction job. I told him a few things about inventions or utilization. Dear Mr. [REDACTED] be not angry with me because I am now turning to you. I hesitated such a long time as my wife does not wish to go abroad. Enclosed I am sending you 2 inventions, that is, ideas and I leave it to your own power of judgment whether one or both, or none of these inventions is suitable. If one seems to be profitable to you, you should apply for a patent in your own name as the best possible way and enter for me and for yourself 45% each of the net profit and 10% for your brother. I am giving you entirely a free hand, as you will undoubtedly try to attain the greatest possible profit.

And now, dear Mr. [REDACTED], I am taking the liberty of telling you something about an invention which the entire world wants to have. (I am only writing the most important facts.) Before the war I intended to make a toy, something which flies, and purely accidentally I discovered a hitherto unknown aerodynamic law. I experimented further. I improved and informed several comrades. They were enthused and emigrated to South America. There they tried it on their own responsibility. People were killed and they failed to perfect the incomplete invention. They approached me again. As they were only artisans, these flying machines were, of course, built primitively. The first experiments to fly with a motorcycle motor attained the result of 250-300 km. Not bad for the years 1938-39! With a powerful motor they then flew 2600-2800 km. (hour kilometers).

COPIES DESTROYED  
276 NOV 19 1961

After the war they came to me again and told me about their misfortune, that about 60% of all flights had been fatal. To make it very clear, they wanted to find out how I construct my flying apparatuses, because with a device, which endangers lives, they could not, of course, appear before the public, and, therefore, all this is still, so to speak, a private secret. In America, this flying machine is called "flying saucer," and since among my former comrades a quarrel broke out and they distrust each other and none of them has the intelligence, which this invention demands, they have not progressed over there.

I imagine that they have stubbornly adhered to some construction, that is, become involved in it that they cannot advance. It has taken me years to reach the point where I can already say with respect to the construction plan that now the machine is safe for flying. Thereby I am losing, however, some speed, but, in return for it, safety is secured and this is the main thing. This machine is so very simple in its construction that, if one gives me an engineer and experts, I can build this apparatus in 5 to 6 weeks at the most (but only experimentally for a crew of 1 to 3 men). Then this machine attains, with an automobile motor of 80 to 120 h.p. about 700 to 1,000 km. If a firm would exist, which does not shun the costs, I can, because of the simple construction of the machine, build the first machine immediately in such a manner that it exceeds the 2000 km. limit per hour.

Because of the new aerodynamic law it is possible without any difficulty (everything without propellers) to reach such speeds. Now the idea has come to me to build some kind of popular flying machine which is cheaper than an automobile. One does not need any starting or landing strip and one would have a travelling speed of about 500 to 700 km. per hour. I believe that America would be the most favorable place in the world for it. You will now understand that I am very anxious to establish contact with a firm which is greatly interested in this invention. But as I have no knowledge of English, it is for me, from the very beginning, an affair which will come to nothing. If you, dear Mr. [REDACTED] can start the matter, you will not have done it in vain. I am not niggardly and besides I want to go to the U. S. A. to realize there a still larger project for which I need co-workers. The circular flying machines shall bring me the money for my further future plans, for I believe popular flying machines, according to my model and besides 100% safe from crash, will be a gigantic business. I do not know the magnates over there; perhaps HENRY FORD or an airplane factory, possibly a helicopter plant would be interested in it.

But I shall announce the names of my comrades only after I have received a contract pertaining to license or gratuities and after my arrival in the U. S. However, it must be added that I shall not lay out the money for the passage if some firm accepts me for the construction of the flying machines. But in addition to all that I need someone who lives over there and who knows the English language, and now I am asking you, my dear Mr. [REDACTED], whether you can function as my manager as they say in the U. S. A. Well, you know that the manager receives payment, and I believe that you will enjoy working with me later on inventions when I am over there. Incidentally I mention that I took a course as a chemist. (The "Do" - apparatuses, later called fog - or rocket-missiles, originated with me and also many other things.) I hope that you can decipher my hieroglyphic script. Such small writing is not in my line. So that you may see that I am not exaggerating, I declare upon oath that the invention, known by the name of "flying saucer," is my own, that I know the men who are building these machines in South America, and that I can construct the above-described machine myself and attain at least 2000 km.

/s/ [REDACTED]

I hope that you will be interested in it. I am awaiting your communication very hopefully.

With friendly greetings,

Respectfully,

/s/ [REDACTED]

Item #2

1-21-54

[REDACTED]  
Klagenfurt - West

Dear Mr. [REDACTED]

I have received your letter of 1-12, on 1-19. Many thanks for your efforts. With joy I have taken cognizance of the fact that you have already contacted American authorities concerning my invention. However, I have no great hopes, because I know that with the U. S. everything is defective, exactly as with the English. - Example: Already a long time ago I wrote 2 or 3 letters to the U. S. authorities at Salzburg and I was in Salzburg myself during the past year, but everything was in vain. - At the most, in response to my letters, some Russian agent comes; that is all. When I wrote in Switzerland at first to President TRUMAN and then to President EISENHOWER through an official bureau, also everything was of no avail. In the end, always Russian agents come. In May 1953, a big dirty pig arrived who wanted to make me believe that he would take me in an automobile to the emigration office for Austrians in Switzerland. He enraged me to such an extent that I hit him in the face with my fist. But he had also helpers and I am not sure how it ended. I awoke, lying on the ground, and all had disappeared. Several days ago a man approached me at my working place who only pointed a finger upon me, saying: "You!" When I looked at him; he quickly ran away. I could not recognize him, but seemingly he knew me. - But the English are even more stupid. I wrote to the local city commandant's office about my invention (just like to you) but no reply came. When at one time I accidentally listened to "Radio Canada," I learned about my statements. Those people said that one had finally succeeded (possibly Scotland Yard) to obtain exact data on the German flying saucers and that one would, therefore, establish a research station in Canada with English experts, etc. I wondered whether the entire world had gone crazy. I offer my invention for sale, and those people make such a noise about it! They will never perfect the machine without my data. Well, I let you know that I am somewhat in the bad books here; strictly speaking since 1937, because of our eagle, also called misfortune. Our coat of arms, the bird

of Austria, has in its claws hammer and sickle, and when I announced in 193(?)7 in public that the communist symbols also appear on our money, the gendarmery arrested me and told me that I was crazy. Since I repeatedly declared that a "red dog" sits in the government in complete secrecy, everything has failed. But that since then an information has always been based upon the word crazy, I do not believe, although I know that the communists have always guarded me very strictly. Furthermore, I accidentally (relatives) discovered the fundamentals of Russian atom physics (a law of nature, unknown to America) and, therefore, since 1933 all my attempts to get into the U. S. A. have been frustrated in every respect. I cannot journey to that country. Since I (relatives) also exactly know the most secret Russian communications methods (apparatuses) and the system, they are doing their utmost to prevent me from establishing contact with the U. S. A. I hardly believe that it will be possible by normal means. I shall not place myself into an airplane again! The Americans do not know how many Russian agents are with them. After I had written to the Pentagon about my invention, a rejection arrived. From Salzburg I have never received a reply. Seemingly, the English have lost my address and when I reported to the local FSS that I can construct the Russian apparatuses, I received...\*)

---

\*) Examiner's comment: This communication is incomplete.

[REDACTED]

On January 12, 1954, [REDACTED] East Orange, NJ, appeared at the Newark Office and advised that he had received a letter from one [REDACTED] West Austria, on about December 20, 1953.

[REDACTED] stated that the letter requested him to attempt to sell a number of inventions, which he, [REDACTED] had developed. [REDACTED] stated that the request was to contact Aircraft Companies and Sewing Machine Companies in the United States and attempt to interest them in these devices.

According to [REDACTED] requested that no governmental agencies be contacted. [REDACTED] stated that the inventions, which [REDACTED] had developed were new type of sewing machine and a flying saucer. [REDACTED] stated that he came to this office because he felt that the flying saucer was of some importance in the national defense of this country. [REDACTED] stated that he has never met [REDACTED] but that [REDACTED] was given his name by [REDACTED] brother, [REDACTED] who resides in Graz, Austria, and who is employed at [REDACTED], Graz, Austria. [REDACTED] stated that his brother worked with [REDACTED] at one time, and he believes that [REDACTED] is a chemist or some type of engineer. [REDACTED] stated that the contents of the letter seemed fantastic to him and that if the letter were not written in such an intelligent manner, he would have doubted [REDACTED] sanity. He stated that [REDACTED] claims to have sold a new principle of aero-dynamics, which made it possible to construct a practical flying saucer and that [REDACTED] had developed a model that flies without the usual hazards. According to [REDACTED] the letter continues by stating that [REDACTED] has been in contact with other men throughout the world, who have been attempting to develop the saucer and that he has been the first to win real success.

By way of background, [REDACTED] stated that he was born in the vicinity of Leoben, Austria in 1925 and arrived in New York City on March 29, 1952 from Bremerhaven, Germany. He is employed at the [REDACTED] in Maplewood, NJ.

On January 30, 1954, [REDACTED] East Orange, NJ, appeared at the Newark Office and advised that she was the wife of [REDACTED]. She stated that another letter had been received from [REDACTED] by her husband, [REDACTED]. She stated that her husband did not want to furnish the information in this letter to the FBI. She stated that he was not aware that she was furnishing this information and wished to keep the interview confidential.

COPIES DESTROYED  
270 NOV 19 1964

21

██████████ stated that the letter received recently by her husband, from ██████████, contained information that ██████████ had been contacted by Communists in Austria, who wished to take him to Switzerland in order that he might further develop his new principle of aero-dynamics. According to the letter, ██████████ has continued to refuse any offer by the Communists and wished ██████████ to increase his efforts to sell ██████████ new invention in the United States.

104 H-11 3-22-41

By way of background, ██████████ advised that she was born of German parents in South Russia and at the time of the German invasion of Russia, during World War II, she and her family were resettled in Germany. After the war, she married ██████████ and came to the United States with him.

20

July 24, 1953

Mr. [redacted]  
[redacted]  
Mackinac Island, Michigan

Dear [redacted]

RECORDED  
Your letter of June 30, 1953, was brought to my attention upon my return to the city, and I want to thank you for making this information available to me.

I wish to advise that the situation which you discuss in your letter does not pertain to any matter within the investigative jurisdiction of the FBI. Obviously, therefore, no representative of this Bureau conducted the interview with Mr. [redacted] which you describe relative to "flying saucers."

Sincerely yours,

J. Edgar Hoover

John Edgar Hoover

RECEIVED DIRECTOR  
U.S. DEPT. OF JUSTICE  
JUL 27 12 18 PM '53

cc - Cincinnati  
Reurlet July 15, 1953.

NOTE: Mr. [redacted] letter of June 30, 1953, stated that a former named [redacted] of Circleville, Ohio, had reportedly seen a flying saucer and had been subsequently interviewed on the matter by representative of the FBI. Mr. [redacted] desired to know if this were true.

Bulet of July 9, 1953, to him was an "in-absence" reply, containing a note for SAC, Cincinnati to determine the basis of the rumor. Cincinnati letter of July 15, 1953, indicates that [redacted] was interviewed on July 14, 1953; at that time Stevenson indicated that he had been interviewed on the subject by one [redacted] of Columbus, Ohio, who made the statement that he (Grant) had once been "checked" by the FBI. Cincinnati files reflect no prior interview with the former, who is [redacted], Circleville, Ohio.

FROM : SAC, CINCINNATI (105-0)

SUBJECT: MR. [REDACTED]  
Mackinac Island, Michigan  
RESEARCH - CRIME RECORDS

ReBulet dated 7-9-53.

[REDACTED], Circleville, Pickaway County, Ohio, advised he is cognizant of a "flying saucer" report made by Mr. [REDACTED], Circleville, Ohio. According to Mr. [REDACTED] reported that a saucer-shaped object had landed on his farm some time ago, and this report eventually reached local newspapers. In June, 1953, an individual discussed the matter with Mr. [REDACTED] advised that this person did not, to his knowledge, represent himself to be an FBI Agent. The [REDACTED] further declared that he has known [REDACTED] all his life and that he is a prosperous, well-respected local farmer, who is considered trustworthy.

Mr. [REDACTED] was interviewed 7-14-53 at which time he stated that shortly after he received some publicity regarding his report of sighting a saucer-shaped object, he was visited by one [REDACTED], who gave his address as [REDACTED] Tri-Village Station, Columbus, Ohio. According to Mr. [REDACTED] told him he was a salesman of television antennas, and that for over six years he had been pursuing the hobby of investigating "flying saucer" reports. He emphasized that he had no official connection with any part of the Government, but stated that he had once been "checked" by the FBI. Mr. [REDACTED] declared that [REDACTED] showed him pictures of "flying saucers" and told him he was writing a book on the subject, which would be published soon.

A search of the Cincinnati indices revealed no information identifiable with either [REDACTED]

DATE: July 10, 1953  
TO: Director of Special Investigations  
The Inspector General  
Department of the Air Force  
The Pentagon  
Washington 25, D. C.  
FROM: John Edgar Hoover, Director  
Federal Bureau of Investigation  
SUBJECT: FLYING SAUCER

The following information was furnished to the Atlanta Field Office of this Bureau at 5:45 A.M. on July 8, 1953, by Mr. [REDACTED] reporter. Mr. [REDACTED] stated Mr. [REDACTED] Northeast, Atlanta, Georgia, telephone number [REDACTED], contacted him at the office of the [REDACTED] and advised as follows:

According to [REDACTED] he and two other companions, while travelling in an automobile on Bankhead Highway in the vicinity of Kableton, Georgia, encountered three small animals which they believed had landed from a flying saucer. Waters advised as he and his companion approached, the three animals started making their way back to what was believed to be a flying saucer. According to [REDACTED] two of the animals landed in the flying saucer but the third was killed when hit by the automobile in which Waters and his companions were riding.

According to [REDACTED] Waters displayed the animal which had been killed to him at the "[REDACTED]" newspaper office. [REDACTED] stated the animal did not resemble anything he had ever seen before but it looked as though it belonged to the monkey family. According to [REDACTED] the animal was approximately 21 inches long, had a rather pointed head, large ears and pinkish skin. [REDACTED] stated because of the early morning hour he was unable to locate a scientist to examine the animal, but he did have one of the leading veterinarians of Atlanta, Georgia, examine it.

COMM - FBI  
JUL 10 1953  
MAILED 27

62-83894-334  
26

██████████ advised the veterinarian would not  
con it himself but the veterinarian pointed out he had  
never seen an animal in the monkey family without hair  
nor had he ever seen a dead animal that did not turn  
pale at death. According to ██████████ the veterinarian  
stated the animal's tail was missing and that when he  
had questioned others about the missing tail ██████████ had  
seemed somewhat surprised and indicated it had possibly  
been cut off in the accident. ██████████ stated there was  
blood around the mouth of the animal, which resembled  
human blood.

At the time ██████████ furnished the above informa-  
tion to the Atlantic Office of this Bureau, he stated  
neither he nor any member of the ██████████  
newspaper staff had been drinking but had witnessed the  
above. ██████████ stated he first thought ██████████ had tried  
to pull a publicity gag in this matter; however, it was  
██████████ opinion if this had been ██████████ notice, ██████████  
would have timed his visit to the newspaper office better  
as the newspaper was unable to print anything on the story  
after midnight. ██████████ informed the Atlantic Office of this  
Bureau that ██████████ would probably  
run a story concerning the information set forth above.

It is noted your office was telephonically con-  
tacted on the morning of July 9, 1953, by a Liaison rep-  
resentative of this Bureau concerning the above matter.  
The above is furnished for your information and no investi-  
gation is being conducted in this matter by this Bureau.

### **The Little Man Who Wasn't**

Edward Waters and two friends said they saw a flying saucer on U. S. Highway 78 near Atlanta, Ga., and several small creatures running toward it. They ran over one but the others entered the saucer and flew off in a blaze of light. Mr. Waters exhibits the "man from Mars" but an anatomy professor called it a skinned monkey.

ENCLOSURE

62-3411-334  
Washington Daily News 7/9/53

(SAUCER)

ATLANTA--TWO BARBERS AND A BUTCHER PRODUCED A 21-INCH LONG "CREATUR TODAY TO PACK UP THEIR TALE THAT THEY HAD SEEN A FLYING SAUCER AND THR ELUSIVE LITTLE MEN AFTER CONSUMING ONE BEER APIECE.

AN ANATOMY PROFESSOR SAID, HOWEVER, THAT THE CORPSE THE EARTH MEN SUSPECTED WAS FROM OUTER SPACE APPEARED TO BE A MONKEY.

THE MEN WERE CONVINCED IT WAS FROM OUT OF THIS WORLD. THEY SAID THEY RAN INTO IT WITH THEIR AUTOMOBILE WHILE DRIVING ON A HIGHWAY NEAR HERE LAST NIGHT.

"RIGHT THERE IN THE MIDDLE OF THE HIGHWAY WAS THIS THING, GLOWING RED ALL OVER," SAID EDWARD WATTERS, 28-YEAR-OLD BARBER. IT LOOKED LIKE A FLYING SAUCER PICTURE HE HAD SEEN IN A SCIENCE MAGAZINE. HE SAID "THREE LITTLE MEN WERE RUNNING FOR IT," WATTERS CONTINUED. "THEY ALL JUMPED. TWO OF THEM MADE IT. I HIT THE OTHER ONE."

WATTERS SAID THE MACHINE SOON ROSE INTO THE AIR AND ZOOMED AWAY. HE SAID IT WAS NOT MORE THAN WAIST HIGH AND ABOUT HALF AS WIDE AS THE ROAD.

WATTERS' COMPANIONS, ARNOLD PAYNE, A BUTCHER, AND THOMAS WILSON, A BARBER, TOLD THE SAME STORY. WATTERS SAID THE INCIDENT OCCURRED ABOUT MIDNIGHT AFTER THEY HAD CONSUMED ONE BEER APIECE.

DR. W. A. MICKLE, ANATOMY PROFESSOR AT EMORY UNIVERSITY, EXAMINED THE ANIMAL, WHICH HAD BECOME A VICTIM OF AN AUTOMOBILE ACCIDENT. MICKLE SAID IT LOOKED LIKE A MEMBER OF THE "RHESUS MONKEY FAMILY," ALTHOUGH IT HAD NO HAIR.

"IF IT'S A CREATURE FROM OUTER SPACE, THEY HAVEN'T INVENTED ANYTHIN NEWS," HE SAID.

WATTERS DECIDED TO FREEZE THE THING WITH DRY ICE AND PUT IT ON DISPLAY.

# Grand Hotel

WORLD'S LARGEST SUMMER HOTEL

MACKINAC ISLAND - MICHIGAN

June 30, 1953

Federal Bureau of Investigation  
Washington, D. C.

Gentlemen:

A relative of mine living in Circleville, Ohio has advised me of the following account.

Two years ago a respected farmer living near Circleville saw a lighted object dancing around, flying around in the air near his late at night in a pasture or field, -- a flying saucer. In due time this came to have general knowledge in the community, and about one year ago the story appeared in the Circleville newspaper.

Since then he is presumed to have been consulted with representatives of the F.B.I., so it is said there, and only three weeks ago or so it is said the F. B. I. representatives came to consult with him again. This time they brought pictures to show the farmer of various types of these flying saucers or space ships that have been apprehended by the government from time to time, and the farmer was able to identify one of them as the type of thing he had seen two years ago.

The farmer was told, as the story goes, by your representatives, that the particular flying saucer he identified is the type that is known to have been flown from the planet Mars, and that similar ships have been captured, and that your agency or the government hold captive one man at least in California, who was taken from one of these things from Mars. This Martian it is understood is now being taught how to speak English -- in California -- and taught American customs. It is said that it is apparent that this Martian comes from a civilization much more advanced than our own civilization.... and that this account has general knowledge as reported here in that community.

I understand that the farmer is a Mr. [REDACTED], that he is held in very high repute in the community, prosperous, conservative and of presumed sound mind.

RECORDED - 68  
INDEXED  
JUL 1 1953

I can only believe that the account is a lot of nonsense, insofar as the F.B.I. telling the farmer that the government has captured several "flying saucers", and that they are from Mars, and that a Martian is being held captive in California. It would be apparent to me that if the government did have such knowledge, they would not confide such information to the farmer, -- and moreover that it is too utterly fantastic to credit with recognition as true. The farmer no doubt saw a "flying saucer", a light reflection or other light phenomenon such as the government has said all such things really are, and not a space ship from Mars or anyot place in outer space.

I am writing to hopefully secure your advice, insofar as you can properly advise me publicly as a citizen, of what the truth is in this story. I should like to set my relative there straight. And I am curious personally to know what the real story is about this farmer - Mr. [REDACTED] of the Circleville, Ohio area.

Respectfully yours,

[REDACTED]

May 9, 1953

Dear Sir:-

(Y)  
(May 7th)

Thursday evening 9:25 PM I  
left school (M. d. T) and  
entered the parking lot along side  
of the school. I happened to  
look up and I saw what  
seems to be known as a flying  
saucer. I assume you it was  
not an air plane; a search light  
was a falling star. It was round,  
in shape & a rather orange color  
it traveled horizontally at a  
rather slow speed for just a  
few seconds then disappeared.  
just like that. I was not alone  
at the time, another student was  
with me & saw it. I can give  
you his name & address if you  
like it.

Vertical stamp on the right edge of the page.

When I arrived home I spent approx  
one half hour calling C.D. & his  
Thousand operations etc finally after  
getting no answers I called the  
Wendover police who merely informed  
me they didn't know what I should  
do about it. It came as rather a  
surprise to me, I thought that  
there was supposed to be somebody  
in charge of all this. I do  
not know to whom I should write &  
in desperation am writing to you. I  
do hope you will report this to the  
proper authorities for me and I hope  
you will suggest to the local C.D.  
that they should have someone  
or someone that a person could call  
to report such findings. I would appreciate  
very much a reply from you. May  
I just add that I honestly don't know  
what the unknown object was. I never  
before saw anything like it. I would  
be very happy to supply any other  
information you would like.

Thanking you very much,

Sincerely yours

STANDARD FORM NO. 64  
**Office Memorandum • UNITED STATES GOVERNMENT**

TO  
FROM  
SUBJECT

DIRECTOR, FBI  
SAC, SAN JUAN (65-330)

DATE: 4/28/53

UNIDENTIFIED FLYING OBJECT OBSERVED  
11:30 AM, APRIL 8, 1953, FORT  
BUCHANAN, PUERTO RICO:  
MISCELLANEOUS

On 4/27/53 a report was received from Major [REDACTED]  
Wing Intelligence Officer, Ramey Air Force Base, Puerto Rico.  
The substance of this report is as follows:

Five persons observed an unidentified flying object at 11:30  
AM on 4/8/53 at Fort Buchanan, Puerto Rico. Statements were  
taken from all of the witnesses, among whom were three Captains  
and a Sergeant of the U. S. Army, as well as a civilian. They  
described the object as a bright star or a bright ball of fire  
at a great height, and it was moving rapidly at the time it was  
observed.

All of the witnesses observed one RB 36 aircraft which had been  
flying in the area at the time of the sighting of this unidenti-  
fied object. The Wing Intelligence Officer reported that there  
were two RB 36 aircraft in the area at this time. These aircraft  
were reported to be flying at 12,000 and 21,000 feet respectively.  
None of the persons from whom statements were taken were able to  
accurately describe the object, other than by the statements set  
forth above.

This matter is being reported to the Bureau for information  
purposes.

CLOSED.

TRANSLATION FROM SPANISH

Valparaiso, March 4, 1953

Director of the Federal Bureau of Investigation  
Washington  
United States, North America

Subject: Individual who may possibly be connected with  
O flying saucers.

Dear Sir:

In writing to you who directs the influential Office of Investigation which has international connections, I would like to state the following:

1°-a) I had the opportunity to read in a "Chilean" police magazine, in the section entitled, "Perfect Escapes," the escape of Dr. LINKE (42 years old, widower, who sometime in 1950, in London, was arrested on the 8th floor of the Building of Departments (?). The reason for his detention was his possible collaboration with VLADIMIR VLASAV in "divulging to foreign governments English aviation secrets".)

In his attempt to get away, which occurred between 4 and 5 in the morning, a strange thing happened, "when the police came near the 8th floor, the whole building became dark, the elevators stopped and the telephones and loudspeakers became silent. When the police arrived on the 8th floor with their flash lights, they immediately went off. (Nevertheless, he was arrested at 6 A.M.).

b) Dr. LINKE escaped from the Kent Prison (a few days after he was imprisoned) and according to statements of the author of the article, which should be accurate, he did it in the following manner: Between 12 midnight and 2 A.M., in rainy weather, Dr. JULIUS LINKE disappeared under the following circumstances: the electricity, elevators, telephones, and flash lights of the guards would not function.

TRANSLATED BY:

*W* ~~March 12, 1953~~ *had*

RECORDED - 26

162-83574-329  
12 MAR 26, 1953

CRIC REC

According to the article, among other statements of the guards, was the fact that between midnight and 2 o'clock rain fell in torrents and for a few moments there was complete darkness because the lights went off. A guard tried to ring the alarm which would set off the siren, and it did not work; he yelled to another guard but did not get an answer, and his voice sounded very "distant"; although he tried to warn his chiefs personally, he could not run or even walk fast (he had to walk slowly).

2°).—A little before the fall of Berlin, "the motors of autos and trucks stopped unexpectedly," without any apparent explanation; after one hour they succeeded in starting them again. During this occasion it was commented that "something rare occurred in the atmosphere."

3° - About three months ago I read in a local newspaper about the "flying saucers," with the reservation that perhaps they would be speculating about the flying saucers; however, it is undeniable that they were telling the truth. It stated that, according to the article from a news agency, an officer and his associate who were flying a plane saw a "flying saucer." They followed it, but it, as in previous cases, whirled about and could not be reached. However, the flying saucer flew very high and then it began a rapid descent; it stopped a few seconds on the officer's airplane, paralyzing the motors of the airplane, (according to statements of the aviators). Later the disk flew very high and was lost from view, and the airplane motors began working.

Any inference from the above statements — according to my way of thinking, — that these facts may appear to be imaginary, is dispelled by the statements of various witnesses on each occasion, and therefore they are "scientific" facts.

If on two occasions paralyzation of electricity occurred, as well as what we may call paralyzation of vital forces (in the case of the guards), and in said cases "the interference of one person," Dr. LINKE, is inferred, why could not Dr. LINKE also be connected with the other two cases (2 and 3)?

It may be that all this is not in any way related and that the flying saucers are nothing more than what has been given as a scientific explanation, but the "strange force," about which our ancestors have not spoken to us in history, we cannot deny.

I submit for your full consideration all I have said, my only motive being "human interest for human affairs" and my desire for the progress of humanity, for a good future full of dignity and cosmic evolution.

Without further particulars, I remain

Sincerely yours,

  
Chile, South America

P. S. Please acknowledge receipt of this letter.

[REDACTED] called from Bowie, Maryland, at 9:05 P.M., 3/9/53, to advise that he had just seen a flying saucer near that city. He was vague as to details and nonresponsive as to where he was calling from and as to his residence. When asked where he planned to stay tonight, at least, in order that Air Force might interview him if deemed advisable, [REDACTED] said the writer wanted to know too much and disconnected. Since no specific information was furnished and since the call may have been a prank, the Air Force was not advised. Since no identifying information was obtained, no attempt was made to check Bureau records.

Subject: FLYING SAUCERS

The following information has been received by this Bureau from its representative in London, England, concerning the captioned matter:

Major [redacted] U. S. Air Force Base, Mildenhall, England, telephonically contacted the writer on February 14, 1953, regarding the new or revived interest in "flying saucers." He stated he did not have any new information to report but he knew of an incident that took place several years ago which this Bureau might desire to check.

This incident, according to Major [redacted] concerns an article or story on "flying saucers" which appeared in a small newspaper with limited circulation located at Jeffersonville, Delaware Township, Sullivan County, New York. He was unable to recall the name of the newspaper but was certain it is the only one published in that area. The story appeared in one of the early 1947 issues or in one of the issues during the last three months of 1946. It was written by a member of the U. S. Armed Forces and of significance is the fact that subsequent issues failed to follow it up by
