CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 7 Jan 48 Incident # 330  
2. Time 1420 CST  
3. Location Control Tower, Godman Fld  
4. Name of observer Capt J. F. Dusaler, Jr.  
5. Occupation of observer Capt, USAF  
6. Address of observer Godman Fld, Ky  
7. Place of observation Godman Fld Control Tower  
8. Number of objects 1 at 1420  
9. Distance of object from observer N/S  
10. Time in sight From 1420 to 1600 CST - Over an hour and a half  
11. Altitude N/S  
12. Speed 360 MPH - according to statement of Mantell  
13. Direction of flight Apparently from 234° to 259° South to West  
14. Tactics N/S  
15. Sound N/3  
16. Size Believed large  
17. Color Silver - bright  
18. Shape like tear drop - round; later, object seemed fluid  
19. Odor detected N/S  
20. Apparent construction N/S  
21. Exhaust trails No tail -  
22. Weather conditions N/S - Scattered but clear  
23. Effect on clouds N/S  
24. Sketches or photographs None  
25. Manner of disappearance Obscured by clouds  
26. Remarks: (over)

UNCLASSIFIED

*SECRET*

*SECRET AIRFILE*

At approx 1420 7 Jan 48, Dussler accompanied by Lt Col E. G. Wood went to Godman Control Tower to observe an unidentified aerial object. Shortly after their arrival Col Hix, the Commanding Officer was summoned. At about this time Dussler first sighted a bright silver object. Then Col Hix arrived. Shortly thereafter a flight of four P-51's flew over Godman. Leader was contacted to pursue object. He assented and three P-51's climbed on the course, the fourth P-51 returning to base. Flight leader called to observe that "object was twelve o'clock high." Asked to describe it, he stated "it is bright and climbing away from me." He stated at first that it was going about 180 MPH. Then Control Tower lost sight of the flight but could still see the object. (In connection with this, Lt Col E. Garrison Wood who witnessed the sighting stated that while it appeared about 1/10 the size of a full moon, if the thing were a great distance away, as compared to the diminishing size of the P-51's flying toward it, it would seem that it was at least several hundred feet in diameter.) Shortly after NG 861, the flight leader, stated that he was "at 15,000 ft and still climbing" He stated that he judged the speed to be the same as his or approx 360 MPH. One of his planes then asked him to level off but no reply was heard from the flight leader. That was the last message received from any member of the flight.

After dark, another or the same object appeared in approx  $23\frac{1}{4}^{\circ}$  from Godman at  $6^{\circ}$  elevation. This body moved to the west ( $259^{\circ}$ ) and then down. The shape was fluid but generally round with no tail, the color changing from white, to blue, to red to yellow and had a black spot in the center at all times.

At 1600 CST it was obscured by clouds.

NOTE: Later, an astronomer was contacted who attempted to account for this phenomena as either Venus or a comet. (?)

SEE ALSO: Report of civilians and state police and corroborated version on this incident.

*SECRET AIRFILE*

REF ID: A65707C

PFC Stanley Oliver was on duty at the Control Tower at Godman Fld when Col Hix's office informed the tower that an unidentified object (supposedly some 250 ft to 300 ft in diameter) was sighted over Mansville, Ky. This was approx at 1330 CST. Lt PFC Oliver saw the object southwest of Godman Fld. To him it resembled an ice cream cone topped with red. Could not ascertain if it were moving or not.

Ormer

RELIABILITY: Witnesses: Col. Hix, (CO), Capt Carter, Lt Gumm & M/Sgt Blackwell.

NOTE: The report of alerting the P-51 aircraft contained in PFC Oliver's statement and the witnesses corroborates material contained in the other reports.

ACFTN/NOTC REF ID: A65707C

## CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

Incident # 338

1. Date 7 Jan 48
2. Time Approx 1320 CST
3. Location Godman Fld., Ft Knox, Ky.
4. Name of observer PFC Stanley Oliver
5. Occupation of observer N/S - duty in control tower
6. Address of observer Godman Fld., Ft Knox, Ky.
7. Place of observation Control Tower, Godman Fld., Ft Knox, Ky.
8. Number of objects 1
9. Distance of object from observer N/S
10. Time in sight N/S
11. Altitude Over 15,000 ft
12. Speed N/S
13. Direction of flight Southwest
14. Tactics N/S
15. Sound N/S
16. Size N/S
17. Color Object appeared like "ice-cream cone topped with red" - apparently white with red above
18. Shape cone
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S
22. Weather conditions Cloud formations
23. Effect on clouds Went behind clouds
24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: (over)

UNCLASSIFIED

## CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

Incident # 33 a

1. Date 7 Jan 48
2. Time Shortly after 1400 CST
3. Location Godman Fld., Ft Knox, Ky.
4. Name of observer Lt Paul I. Orner
5. Occupation of observer Detachment Commander
6. Address of observer Godman Fld., Ft Knox, Ky.
7. Place of observation Control Tower
8. Number of objects 1 See Note attached.
9. Distance of object from observer N/S
10. Time in sight N/S
11. Altitude N/S
12. Speed half speed of P-51
13. Direction of flight N/S
14. Tactics Appeared stationary
15. Sound N/S
16. Size N/S
17. Color white
18. Shape like parachute - round
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails Seemed to be some red light around the lower part of it.
22. Weather conditions High - scattered but clear
23. Effect on clouds None
24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: (over) UNCLASSIFIED

RAC

Unknown object first reported by Military Police at Ft Knox, approx 1400 CST, vicinity of Maysville. Later over Irwington & Owensboro, Ky. Sighted, Godman, by Blackwell, Chf Control Tower. Lt Orner then left office of CO, proceeding to Control Tower where he sighted a small white object in the southwest sky. It appeared stationary. Could not determine if object radiated or reflected light. Thru binocs it appeared partially as parachute with bright sun reflecting from top of the silk, however, there seemed to be some red light around the lower part of it. Three P-51s alerted to pursue object. Took a course of around 210°. Approx 5<sup>o</sup> later object sighted. EG 861 (flight leader) reported it "high and traveling about 1/2 his speed at '12 o'clock'". Later he stated he was "closing in to take a good look". This was his last message. EG 860 then reported EG 869 had disappeared. At the time of his disappearance he was reported high and ahead of wing man at approx 13,000 to 20,000 ft and wing man at approx 15,000 ft. Wing man (EG 860) returned for fuel and resumed pursuit going to altitude of 33,000 ft but did not sight object. At about 1645 Lt Orner left tower.

Later, Lt Orner, returned to Control Tower (about 1735 CST) and perceived bright light at a position of about 240° azimuth and 8° elevation. It was a round object and did not resemble a ~~satellite~~. Although there was a heavy haze the object remained visible and did not disappear until it went below the level of the earth in a manner similar to the sun or moon setting. This object was viewed and tracked with the Weather Station theodolite from the hangar roof.

RELIABILITY: Verified by Commanding Officer, Operations Officer, S-2 and Executive Officer. However, these officers were apparently present when second sighting took place.

RHC

## CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

26. Remarks: (over)
- ~~REF ID: A678~~

MSV

At approximately 1320 Sgt Cook from the CO's office notified the observer (T/Sgt Quinton A Blackwell) that according to Ft Knox Military Police & "E" Town State Police, a large circular object about 250 to 300 ft in diameter was over Mansville, Ky. Advised him to check with Army Flight Svc. They advised negative but shortly thereafter reported object over Irvington, Ky, then Owensboro, Ky. Object first sighted by Blackwell about 1345 to 1350 over south Godman Fld.

Verification: 1st Lt Orner (Detachment Commander)  
Capt Carter (Operations Officer)  
Col Hix (CO) sighted it about 1420

At approximately 1430 to 1440, four P-51's approached Godman f/south enroute f/Marietta, Ga. to Standiford Fld, Ky. Ex Blackwell asked Flight Leader NG 869 to attempt to identify object. Accompanied by two other planes he proceeded south f/Godman. Fourth plane proceeded to Standiford Fld alone.

About 1445, flight leader (NG 869) reported sighting object "ahead and above - still climbing" At 15,000 ft he reported "Object directly ahead and above and moving about half my speed." Again "it appears metallic of tremendous size." Still later "I'm still climbing - object is above and ahead moving about my speed or faster - I'm trying to close in for better look". This was about 1515. Five minutes later the other two ships turned back. NG 800 reported "it appeared like the reflection of sunlight on an airplane canopy". Shortly afterward this same pilot (NG 800) resumed search going to 33,000 ft, 100 miles south but did not sight anything.

DATE

COMMENT NO.

b. It is doubtful that Venus could be observed by the unaided eye from the ground or 15,000 feet as it would probably be hidden by the high degree of sky brightness due to its proximity to the Sun.

c. Jupiter is the only other planet within  $\pm 90^\circ$  of the Sun during this period and its magnitude of brightness is only -1.4 as compared with -3.4 of Venus, making it impossible to observe with the unaided eye. However, the following figures on the Moon are submitted for your information:

Time Local	Altitude	Azimuth
10:00	28°00'	197°
10:30	26°00'	204°
11:00	23°00'	211°
11:30	20°00'	217°
12:00	17°00'	223°
12:30	15°00'	228°

TRANSCRIPT OF LONG DISTANCE TELEPHONE CONVERSATION

13 January 1948

0920

Mr. Loedding, Kembrook 7111 - 21204, Air Intelligence, Wright Field, Dayton, Ohio

Called

Col. B. O. Davis, Jr., Commanding Officer, 332d Fighter Wing, LAAE, Cols. 17, O.

Subject: Request for Information re: objects in the sky

Mr. L.: Colonel Davis, this is Mr. Loedding, Air Intelligence, Wright Field. I understand that a conversation took place January 7, Wednesday, between Godman Field, Kentucky and your base at Lockbourne regarding an unidentified flying object.

Col. D.: If it did I am not aware of it Mr. Loedding. I read about it in the Air Force Times yesterday. A statement about Col. Hicks saying something looked like a flying saucer. That is all I know about it.

Mr. L.: Capt. Dusler said there was a call from Lockbourne Air Base and they were assisting in this thing.

Col. D.: I personally know nothing of that Mr. Loedding.

Mr. L.: I wonder if you could make an investigation - and think if somebody in the tower did see it, maybe you could call me back and I could come there and talk to somebody. Like to interrogate them.

Col. D.: Whether anybody on this station saw a foreign object in the air -

Mr. L.: and whether they discussed it with anyone - particularly Godman Field. If you call me and I will drive over and talk to them.

Col. D.: Shall I call you in case I don't find anybody?

Mr. L.: It would be a good idea to tell me what you find out. My number is 21204, Kembrook 7111, Wright Field.

Col. D.: I will be glad to do that Mr. Loedding.

Mr. L.: I will appreciate it, Colonel. What is your extension?

Col. D.: Fr. 7-5711 Extension 201.

Mr. L.: Thank you very much, sir.

Other messages sent to Mr. L. at this date not transcribed

RJC

estimated size: 100 ft from top to bottom, 45 ft across and 4 miles high proceeding SW at 10 MPH.

NOTE: Kentucky State Police were informed by unknown individual(s) that an unusual aircraft or object was flying thru the air, circular in appearance, with an approximate size of 250-300 ft which was moving westward "at a pretty good clip". This was relayed to Godman Fld.

NOTE: See also report by James Hudson, Inc. 48b

NOTE: Course of object on 7 July 48 is reported roughly as follows:

- / 0720C Edwardsville, Illinois: Object of aluminum appearance without apparent wings or control surfaces which moved southwest remaining visible for about 30 minutes
- 1300: Elizabethtown: No description  
1310: Lexington, Ky.  
Madisonville, Ky. - as reported in this.
- 1400: Maysville: No description
- After 1400: Irvine: No description
- After 1400: Owensboro: No description
- 1630C - 1645C: Nashville, Tenn: A Dr. Seyfert, Astronomer at Vanderbilt Univ. spotted an object SSE of Nashville, Tenn. between 1630C with basket attached which moved first SSE then West at a speed of 10 MPH at approx 25,000 ft.
- 1735: Godman Fld Control Tower: See Crner's account (33a)  
See Duesler account (33c)
- EST 1925: Lockbourne AB, Columbus, Ohio: See Incident 30, 30a, 30 b & 30c

TO MCREKE-45 FROM MCIAKO-3 DATE 20 Oct 48 COMMENT NO. 1.  
ATTN: Capt. Beebout

1. Reference is made to recent telephone conversation between Capt. Beebout and Mr. Colling, concerning the location of the planet Venus on 7 January 1948 between the hours of 1330 and 1515 when viewed from the vicinity of Godman Field, Kentucky.

2. It is requested that the following information be submitted hereon as comment 2:
- Position of planet at half-hour intervals during time mentioned.
  - Opinion as to whether or not planet could be seen from aircraft at 15,000 ft. or from the ground.
  - Was any other major planet in sighting distance at the time?

TSXMF	MCIA	13 Jan 48	1

1. It is the understanding of this office that conversations between the tower at your facility and aircraft in flight within certain ranges are recorded. During an investigation 9 January 1948 at Godman Field, Kentucky, it was learned that such a recording was made 7 January regarding an unidentified flying object. This event took place sometime between 1400 and 1600 hours E.S.T. To complete the intelligence investigation of this incident, it is important that all pertinent information be obtained, particularly the discussion that took place between the three P-51 National Guard aircraft and the tower operator at Godman Field.

2. It is requested, therefore, that a typewritten report of this transcription be furnished this office as soon as possible. If certain words are not readily understandable as a result of static and interference, an attempt at an interpretation by a qualified operator should be made to obtain at least some bit of information that might prove significant.

b. It is doubtful that Venus could be observed by the unaided eye from the ground or 15,000 feet as it would probably be hidden by the high degree of sky brightness due to its proximity to the Sun.

c. Jupiter is the only other planet within  $\pm 90^\circ$  of the sun during this period and its magnitude of brightness is only -1.4 as compared with -3.4 of Venus, making it impossible to observe with the unaided eye. However, the following figures on the Moon are submitted for your information:

<u>Time Local</u>	<u>Altitude</u>	<u>Azimuth</u>
10:00	23° 00'	197°
10:30	26° 00'	204°
11:00	23° 00'	211°
11:30	20° 00'	217°
12:00	17° 00'	223°
12:30	13° 00'	223°

TO: MCIAF

Attn: Mr. Deyarmond

1. Re Sighting of 7 Jan 1948: Reference is made to your conversation with Capt Schneider on 19 October 1948 concerning your desire for a check on the position and visibility of Venus on 7 Jan 1948 between the hours of 1330 and 1350 as compared to the position of an unidentified aerial object.

2. A verbal report was rendered you at 1400 hours, the date of your request, to the effect that Venus was not visible at the date and time mentioned. Extracted versions of pertinent information follow:

a. Statement by 1st Lt Paul I. Orner, O-865766, Airways and Air Communications Service AFC, Detachment 733-5, Air Force Base Unit (103rd AACB Sq) confirms the fact that the weather station theodolite viewed and tracked the object; that the object was first seen at about  $240^{\circ}$  azimuth  $8^{\circ}$  elevation at 1400 hours, and that it disappeared from his view at about  $250^{\circ}$  at 1445 hrs.

b. A statement by Colonel Guy F. Rix, Commanding Officer, Headquarters, 315th Air Force Base Unit (Res Eng) Godman Field, Fort Knox, Kentucky, dated 9 Jan 1948, states that on or about 1445 hours the object was first sighted at  $215^{\circ}$  and that it could be plainly seen with the naked eye, was about  $1/4$  the size of a full moon, white in color and apparently stationary for 1-1/2 hours.

3. Comment No. 2 to R & R from MCXXXE-14 to MCIAO-3, dated 27 Oct 1948 states as follows:

*Ind* Position of Venus

Time - local	Altitude	Azimuth
10:00	$11^{\circ} 00'$	$122^{\circ}$
10:30	$16^{\circ} 00'$	$127^{\circ}$
11:00	$21^{\circ} 00'$	$134^{\circ}$
11:30	$24^{\circ} 00'$	$140^{\circ}$
12:00	$28^{\circ} 00'$	$147^{\circ}$
12:30	$31^{\circ} 00'$	$154^{\circ}$
13:00	$33^{\circ} 00'$	$163^{\circ}$
13:30	$35^{\circ} 00'$	$171^{\circ}$
14:00	$35^{\circ} 00'$	$180^{\circ}$
14:30	$34^{\circ} 00'$	$188^{\circ}$
15:00	$33^{\circ} 00'$	$197^{\circ}$
15:15	$32^{\circ} 00'$	$200^{\circ}$

Mantell Case, January 1948

23 July 1964

Coroner  
Simpson County  
Franklin, Kentucky

Dear Coroner,

In January 1948, at Franklin, Kentucky, an aircraft accident occurred and the county coroner, Mr Harry W Booker, examined the body of the pilot, Captain Thomas F Mantell, Jr.

The Federal Aviation Agency is conducting an investigation of a similar accident in which the cause of death is considered identical. They have expressed a desire for medical records or any other information regarding the condition of the pilot's body after the crash. I am enclosing a copy of their letter to us regarding this information. The case file at Wright-Patterson contains information on the wreckage but nothing concerning the pilots condition.

Any information which you may have, such as the autopsy report, medical findings, photos of the body, etc., would be appreciated by the Federal Aviation Agency. We request that you forward any available data which you may have to:

Dr Richard G Snyder, Ph D, AM-119  
Federal Aviation Agency  
P O Box 1082

Mantell Case, January 1948

23 July 1964

State Police  
Franklin, Kentucky

During January of 1948, Police Officer Joe Walker conducted an investigation of an aircraft accident which crashed into the yard of Mrs Carrie Phillips, Route 3, Lake Spring Road, 5 miles Southwest of Franklin, Kentucky (W J Phillips farm).

The Federal Aviation Agency is conducting an investigation of a similar accident. Any information which you may have regarding the aircraft wreckage and pilot's condition, after the crash, would be appreciated by them. We realize that this event took place over sixteen years ago, however, some of the personnel associated with this incident may recall facts which would be of assistance to Dr Snyder in incidents of this nature. Any information which you can obtain should be forwarded to:

Dr Richard G Snyder, Ph D, AM-119  
Federal Aviation Agency  
P O Box 1082  
Oklahoma City, Oklahoma, 73101

We are attaching a copy of Dr Snyder's letter to us and an extract from the initial UFO report.

Sincerely,

REPORT OF UNUSUAL INCIDENT

At approximately 1400E, 7 January 1948, Kentucky State Police reported to Ft Knox Military Police they had sighted an unusual aircraft or object flying through air, circular in appearance approximately 250 - 300 feet in diameter, moving westward at "a pretty good clip." This in turn was reported to the Commanding Officer, Godman Field, Ft Knox, Kentucky, who called Godman Tower and asked them to have Flight Service check with Flight Test at Wright Field to see if they had any experimental aircraft in that area.

Captain Hooper at Flight Test Operations stated, "We have no experimental aircraft in that area, however we do have a B-29 and an A-26 on photo missions in that area." This information was relayed to Godman Tower by dispatcher on duty and a verification on report was asked for.

Godman Tower later called back and stated first report was by radio to Ft Knox Military Police and followed by telephone call to same from State Police.

Information on P-51's and further reports are reported as follows by Captain Arthur T. Jehli, Supervisor of the 1600E - 2400E shift.

"When the 1600E - 2400E shift reported for duty we were advised that a "disc", or balloon, or some strange object was seen hovering in the vicinity of Godman Field. This object was seen by the Commanding Officer and Operations Officer of Godman Field who advised that they would attempt to send aircraft to ascertain the size and shape of the object.

"At this time there was a flight of 4 P51's enroute from Marietta, Georgia to Standiford Field, Louisville, Kentucky. The lead ship was NG 3869, pilot Mantell. The Commanding Officer, Godman Field contacted this pilot and requested that he investigate the object overhead.

"One of the ships of the formation, NG 336 pilot Hendrichs, landed at Standiford Field. The 3 other aircraft started to climb toward the object.

"At 22,000 feet pilot Hammond, NG 737, advised Clements, NG 800, that he had no oxygen equipment. Both pilots then returned to Standiford Field; pilot Mantell, NG 3869, continued climbing.

"Pilot Clements, NG 800, refueled and went back up to 32,000 feet but did not see either the strange object or the aircraft NG 3869 again, and so returned to Standiford Field.

"At 1750E, Standiford Field advised that NG 3869, pilot Mantell, crashed 5 miles SW Franklin, Kentucky at approximately 1645C.

"We then sent an arrival of 1500C for the 3 aircraft, NG 336, NG 737, and NG 800, also notified Maxwell Flight Service Center that NG 3869 had crashed.

RFC  
UNCLASSIFIED

JW

~~ALL INFORMATION CONTAINED  
HEREIN IS UNCLASSIFIED~~

"Maxwell Flight Service Center made a long distance call to Franklin, Kentucky and spoke to police officer Joe Walker, who took charge at the scene of the accident.

"Officer Walker stated that when he arrived the pilots body had been removed from the aircraft. Upon questioning eye witnesses, Officer Walker learned that the aircraft had exploded in the air before it hit the ground, but, that the aircraft did not burn upon contact with the ground.

"The wreckage was scattered over an area of about one mile, and at that time the tail section, one wing, and the propeller had not been located.

"Lt Tyler, Operations Officer at Standiford Field, departed Standiford Field for Bolling Green, Kentucky in NG 8101 to investigate the accident - Also at our suggestion an investigation party and Military Police were dispatched from Godman Field to the scene.

"So much for the accident - now hold on to your hat!

"Godman Tower again contacted us to report that there was a large light in the sky in the approximate position of the object seen earlier. Then Lockbourne Tower and Clinton County Tower advised a great ball of light was traveling southwest across the sky.

"We then contacted Olmsted Flight Service Center and gave them all the information available to deliver to the Air Defense Command at Mitchel Field, Hempstead, New York.

"Later we received a call from St Louis Tower advising that a great ball of light was passing directly over the field - Scott Tower also verified this.

"We then received a call from Air Defense Command through Olmsted Flight Service Center advising us to alert Coffeyville, Kansas, Ft Smith, Arkansas, and Kansas City, Missouri, and that they had plotted the object as moving WSW at 250 miles per hour.

"We then received information from Maxwell Flight Service Center that a Dr. Seyfert, an astronomer at Vanderbilt University, had spotted an object SSE of Nashville, Tennessee that he identified as a pear shaped balloon with cables and a basket attached, moving first SSE, then W, at a speed of 10 miles per hour at 25,000 feet. This was observed between 1650C and 1645C.

"Olmsted Flight Service Center then advised us to instruct Godman Field to forward a complete report of the whole incident to Air Defense Command at Mitchel Field, Hempstead, New York as soon as possible.

"The Military Police at the scene of the accident called back and advised Godman Field that someone at Madisonville, Kentucky had observed, through a Finch telescope an object described as cone shaped, 100 feet from top to bottom, 45 feet across, and 4 miles high proceeding SW at 10 miles per hour.

UNCLASSIFIED

Jan 5, 1973

"All this time the weather observer at Godman Field was spotting the object with a Theodolite and keeping a record of times, elevations and azimuths.

V "St Louis ATC advised of an article printed in the "Edwardsville Intelligencer", Edwardsville, Illinois, describing an object, over the town at 0720C, of aluminum appearance without apparent wings or control surfaces which was moving southwest. This object remained visible for about 30 minutes. This article went on to describe the amazement and wondering of the editor regarding this object - and you can bet that he was no more confused than I am at this moment."

9 January 1948

SUBJECT: Report of Observation of Unidentified Object  
in Skies Above Godman Field

TO: Commanding General  
Eleventh Air Force  
1612 South Cameron Street  
Harrisburg, Pennsylvania  
ATTENTION: Lt. Col. Chandler PIO Section

1. The inclosed certifications are of personnel from Godman Field who witnessed the object in the southwestern sky from Godman Field on 8 January 1948, with additional information concerning the loss of a P-51, (NG869).

2. Standiford Tower, Standiford Field, Louisville, Ky., reported that two aircraft of an unspecified type were taking off from Standiford at approximately 1500 hrs. and would be directed to proceed to Godman to assist in determining a definite status of the reported object. These aircraft did not appear. Another flight composed of four P-51's flew directly over Godman Tower at approximately 1500 hrs., at which time they were asked their identification. Upon being informed that they were National Guard aircraft from Standiford Field, and upon their replying in the affirmative that sufficient gas was available, they were asked if they would deviate from their course to assist in determining the nature of the object. Their ETA for the flight to Standiford was changed at that time.

3. The object, as it appeared to the undersigned, was circular in shape and, if it was a great distance away, was 1/10th the size of a full moon. If it was an earthly object, the size, as compared to the diminishing size of the P-51's flying toward it, seemed to be at least several hundred feet in diameter.

9 January 1948

STATEMENT OF PFC STANLEY OLIVER

I, Pfc Stanley Oliver, was on duty in the Control Tower at Godman Field on the afternoon of 7 January 1948. When first heard of the object in the sky about 1320 CST, we received a phone call from Colonel Hix's office that a large object was sighted at Mansville, Kentucky, the supposed object was supposed to be about 250 feet to 300 feet in diameter at 1330 CST or more.

Sgt Blackwell sighted an object to the southwest of Godman Field and he asked me if I saw it. I saw the object but thought I was imagining I saw it and Sgt Blackwell told me to look again. This time I was really sure I saw an object and then we called Lt Orner, who came to the Control Tower and he too saw the object. Lt Orner then called Captain Carter who, after coming to the Control Tower, also saw this object. Captain Carter called Colonel Hix who came to the Control Tower and he too saw the object. We all then attempted to figure out just what it could be and to me it had the resemblance of an ice cream cone topped with red.

At or about 1445 CST we sighted five (5) P-51 aircraft coming on from the southwest and as they came over the Control Tower someone suggested contacting the aircraft. Sgt Blackwell contacted them on "B" channel (VHF) and aircraft acknowledged his call. Someone suggested they try to overtake the object and we requested the planes to try and the flight leader stated he would. The call sign of this ship was NG869. They turned around and started toward the southwest again. One pilot in the formation told the flight leader that he would like to continue on to Louisville with the flight leader giving his permission to do so. We kept in contact with the flight leader for about twenty-five (25) minutes. The last contact we had with the flight leader was when one of his wingmen called and said "what the hell are we looking for". Flight leader stated he had the object in sight and he was going up to see what it was. He said at present he was at 15000 feet and was still climbing. Those were the last words I believe we heard from him. Other pilots in the formation tried to contact him but to no avail.

In about another ten or fifteen minutes another P-51 took off from Standiford Field to look for the object. He gave me a call and asked if we still had the object in sight. He was told that at present the object was behind a cloud formation but he said he would try and locate it and in the meantime he tried contacting his flight leader but was unable to do so. He then reported he was unable to see the object and was coming back in when he came over the Control Tower.

I received a call from Standiford Operations that the plane had crashed and the pilot was killed at Franklin, Kentucky. He then sighted

9 January 1948

STATEMENT OF T SGT QUINTON A BLACKWELL

I, T Sgt Quinton A Blackwell, AF18162475, was on duty as chief operator in the Control Tower at Godman Field, Ky. on the afternoon of 7 January 1948. Up until 1315 or 1320 matters were routine. At approximately that time I received a telephone call from Sgt Cook, Col Hix's office, stating that according to Ft Knox Military Police and "E" Town state police, a large circular object from 250 to 300 ft in diameter over Mansville, Ky. and requested I check with Army Flight Service to see if any unusual type aircraft was in that vicinity. Flight Service advised negative on the aircraft and took the other info, requesting out CO verify the story. Shortly afterward Flight Service gave Godman Tower positions on an object over Irvington, Ky. then Owensboro, Ky. of about the same size and description. About 1345 or 1350 I sighted an object in the sky to the South of Godman Field. As I wanted verification, I called my Detachment Commander, 1st Lt Crner, to the Tower. After he had sighted the object, he called for the Operations Officer, Capt Carter, over the telatalk box from the Traffic Desk. He came up stairs immediately, and looked at the object through field glasses in the Tower. He then called for the CO, Col Hix. He came to the tower about 1420 (appx) and sighted the object immediately. About 1430 to 1440 a flight of four P-51's approached Godman Field from the South, enroute from Marietta, Ga. to Standiford Field, Ky. As they passed over the tower I called them on "B" channel, VHF and asked the flight leader, MG 869, if he had enough gas and if so, would he mind trying to identify an object in the sky to the South of Godman Field. He replied in the affirmative and made a right turn around with two planes and proceeded South from Godman Field. The fourth plane proceeded on to Standiford Field alone. The three ship formation proceeded South on a heading of 210°, climbing steadily. About 1445 the flight leader, MG 869, reported seeing the object "ahead and above, I'm still climbing". To which a wing man retorted, "What the Hell are we looking for"? The leader reported at 15,000 ft that "The object is directly ahead of and above me now, moving about half my speed". When asked for a description he replied "It appears metallic object of tremendous size". At 15,000 ft, the flight leader reported, "I'm still climbing, the object is above and ahead of me moving at about my speed or faster. I'M trying to close in for a better look. This last contact was at about 1515. About 5 min. afterward, the other two ships in the flight turned back. As they passed over Godman MG 869 reported "It appears like the reflection of sunlight on an airplane canopy". Shortly afterward, the same pilot and plane took off from Standiford and resumed the search. He went to 33,000 feet one hundred miles South and did not sight anything. I left the Control Tower shortly afterward.

The foregoing statement is true  
and correct to the best of my  
knowledge.

9 January 1948

The undersigned was on duty at Godman Field 7 Jan 48 as Operations Officer.

At approximately 1400 hours and 7 minutes, 7 Jan 48 I received a call from Lt. Orner, AAC Detachment Commander, that the Tower had spotted an unidentified object and requested that I take a look. Lt. Orner pointed out the object to the southwest, which was easily discernible with the naked eye. The object appeared round and white (whiter than the clouds that passed in front of it) and could be seen through cirrus clouds. After looking through field glasses for approximately 3 or 4 minutes I called Co. Hix's office, advising that office of the object's presence. Lt. Col. Wood and Capt. Duesler came to the tower immediately. Col Hix followed them.

About this time a flight of four P-51 aircraft were noticed approaching from the south. I asked Tech. Sgt. Blackwell, Tower Operator, to contact the planes and see if they would take a look at the object for us. The planes were contacted and stated they had sufficient gas to take a look. One of the planes proceeded on to Standiford, the other planes were given a heading of 230°. One of the planes said he spotted the object at 1200 o'clock and was climbing toward it. One of the planes then said, "This is 15,000 ft., let's level out". One of the planes, at this point (apparently the plane who saw the subject) estimated its speed (the object's) at 180M.P.H. A few seconds later he stated the object was going up and forward as fast as he was. He stated that he was going to 20,000 feet, and if no closer was going to abandon the chase. This was the last radio contact I heard. It was impossible to identify which plane was doing the talking in the above report. Later we heard that one plane had landed at Standiford to get fuel and oxygen to resume the search.

The undersigned reported to Flight Service a description, position of the object while the planes searched for it.

Info taken from reports of radio conversation between Control at Godman and MG 869 essentially as follows:

Col Hix's account. MG 869: "Object traveling at 180 MPH - half my speed"

Lt Orner's account. MG 869: "high and traveling about 1/2 my speed at 12 o'clock position."

Later: "Closing in to take a good look"

No further word heard by Orner

T/Sgt Quinton A. Blackwell: MG 869: At 1445. "Object traveling at 180 MPH Directly ahead of & above me now and moving at about 1/2 my speed."

Later: "I'm trying to close in for better look"

At 15,000 ft: "Object directly ahead of and above me now and moving about 1/2 my speed. It appears metallic of tremendous size. I'm trying to close in for better look"

No other word heard by Blackwell from MG 869.

Capt Cary W. Carter: MG 869: "Object going up and forward as fast as he was" - approx 360 MPH.

"going to 20,000 ft and if no closer will abandon chase"

No further contact heard by Capt Carter -  
\*Apparently last word ever received from MG 869.

9 January 1948

At approximately 1420, 7 Jan 48, I accompanied Lt. Col. E.G. Wood to the Godman Field Control Tower to observe "an object hanging high in the sky south of Godman".

Shortly after reaching the tower, Col. Guy F. Hix, Commanding Officer, was summoned; it was at that time that I first sighted the bright silver object.

Approximately five minutes after Col. Hix came into the tower, a flight of four P-51's flew over Godman. An officer in the tower requested that the Tower Operator call this flight and ask the Flight Leader to investigate this object if he had sufficient fuel. The Flight Leader (Capt. Thomas F. Mantell) answered that he would, and requested a bearing to this object. At that time one member of the flight informed the leader that it was time for him to land and broke off from the formation. This A/C was heard requesting landing instructions from his home field, Standiford, in Louisville,

In the meantime the remaining three P-51's were climbing on the course given to them by Godman Tower towards this object that still appeared stationary. The Tower then advised the Flight Leader to correct his course 5 degrees to the left; the Flight Leader acknowledged this correction and also reported his position at 7,500 feet and climbing. Immediately following the Flight Leader's transmission, another member of the flight asked "Where in the hell are we going?" In a few minutes the Flight Leader called out an object "twelve o'clock high". Asked to describe this object, he said that it was bright and that it was climbing away from him. When asked about its speed, the Flight Leader stated it was going about half his speed, approximately 180 M.P.H.

Those of us in the Tower lost sight of the flight, but could still see this object. Shortly after the last transmission, the Flight Leader said he was at 15,000 ft, and still climbing after "it", but that he judged its speed to be the same as his. At that time a member of the flight called to the leader and requested that he "level off", but we heard no reply from the leader. That was the last message received from any member of the flight by Godman Tower.

Foreign Technology Division  
Air Force Systems Command  
Wright-Patterson AFB, Ohio

Dear Sgt. Moody:

Re: Mantell Case

I would like to thank you for forwarding us a copy of the Mantell case so promptly.

As I explained in our earlier telephone conversation we were interested in obtaining data on this case to compare it with a recent P-51 crash occurring in Oregon in which the pilot also apparently became hypoxic at an altitude of over 20,000 feet and dove into the ground. Since in this case the aircraft also disintegrated prior to impact the copies of the wreckage photos were particularly helpful.

We are assisting the Civil Aeronautics Board on this investigation and due to the similarity of certain points would like to obtain a second duplicate copy of this case for our record--I forwarded your earlier copy to the CAB. Secondly, we especially needed any medical information available concerning trauma to the pilot due to impact. This report was not complete since autopsy report, medical findings, and photos of the body of the pilot were not included.

We should particularly like to obtain these medical data. Please air mail if possible.

Sincerely,

Richard G. Snyder, Ph. D., AM-119

9 January 1948

At approximately 1300 hrs. a call came to this Headquarters from State Police, reporting a flying object near Elizabethtown. Another report came in from Madisonville about ten minutes later. A third call came in from Lexington, Kentucky. (All these towns are south of Godman Field).

We alerted the Tower to be on the lookout for flying objects. At 1445 hrs. the Tower notified me that an object had been sighted at about 215°. I went to the Tower and observed the object until 1550 hrs., when it disappeared behind the clouds.

The object observed could be plainly seen with the naked eye, and appeared to be about one-quarter the size of a full moon, white in color. Through eight-power binoculars, the object seemed to have a red border at the bottom, at times, and a red border at the top at times. It remained stationary for 1½ hours.

*Surf 1/16 Jan 48*  
When I arrived in the Tower, Tech. Sgt. Quinton Blackwell had contacted three P-51 airplanes over the field and suggested that they have a look if they had sufficient fuel. When I arrived, they were within sight of the Tower, headed on a course of 215°.

I heard one of the pilots report that he saw the object straight ahead and estimated the speed of 180 M.P.H. The pilot stated that the object was very large and very bright.

DETACHMENT 733-5 AF BASE UNIT (103D AAC SQ)  
Godman Field, Fort Knox, Ky

9 January 1948

STATEMENT OF LT PAUL I ORNER

Following is an account of the sighting of unknown objects from the Control Tower on 7 January 1948 at Godman Field:

On the above date at approximately 1400 CST a report came in to the Control Tower through M Sgt Cook of a report of an unidentified object flying at terrific speed in the vicinity of Maysville. This call was cancelled minutes later by the Military Police at Fort Knox who had instructions from the Kentucky State Police.

Very soon thereafter several reports of the same nature came from Flight Service saying this object was over Irvington and Owensboro, Kentucky. At the same time an object was reported by T Sgt Blackwell, Chief Control Tower operator on duty. I was in the office of the Commanding Officer checking the call from the Fort Knox Military Police at this time. When the call was cancelled I was returning to the Control Tower to see the object sighted by them. I immediately went to the Control Tower and saw a small white object in the southwest sky. This object appeared stationary. I was unable to tell if it was an object radiating its own light or giving off reflected light. Through binoculars it partially appeared as a parachute does with bright sun shining on the top of the silk but there also seemed to be some red light around the lower of it.

The Commanding Officer, Operations Officer, S-2 and Executive Officer were called immediately. Several minutes after the object was sighted a flight of four (4) P-51's came over the field from the south. I instructed T Sgt Blackwell to call flight leader and ask if they had seen any evidence of this object. The flight leader answered negative and I suggested to the Operations Officer that we ask them if they had enough gas to go look for this object. The Tower operator was instructed to call the flight leader and he answered "yes" to this question. One (1) P-51 had permission from the flight leader to break formation and continue where he landed several minutes later on their original flight plan. The flight leader and two (2) other planes flew a course of  $210^{\circ}$  and in about five (5) minutes sighted the object. At first the flight leader reported it high and about one-half his speed at "12 o'clock". Shortly thereafter the flight leader reported it at about his speed and later said he was closing in to take a good look. This was the last message from NG869, the flight leader. NG800 shortly thereafter reported NG869 disappeared. From pilots reports in the formation NG869 was high and ahead of the wing man at about 1515 CST to 1530 CST when he disappeared. NG800 said he was breaking off with other wing man to return to Standiford Field due to lack of gas. This was about 1525 CST to 1530 CST. From messages transmitted by the formation it was estimated the flight leader was at 18 to 20 thousand feet and the wing man at approximately 15 thousand feet wide formation when the flight leader NG869 disappeared. NG800 and other wing man returned to Standiford Field.

STATEMENT OF LT PAUL I ORNER (cont'd)

NG800 gassed up and got more oxygen and flew a second mission on the same heading of  $210^{\circ}$  to a position of about 100 miles south of Godman Field to an altitude of 33 thousand feet and did not sight the object. At about 1545 CST when NG800 reported not seeing the object I left the Control Tower.

At about 1735 CST I returned to the Control Tower and a bright light different than a star at a position of about  $240^{\circ}$  azimuth and  $8^{\circ}$  elevation from the Control Tower. This was a round object. It seemed to have a dark spot in the center and the object moved north and disappeared from the horizon at a point  $250^{\circ}$  from the Tower. The unusual fact about this object was the fact that it remained visible and glowed through the haze near the Earth when no other stars were visible and did not disappear until it went below the level of the Earth in a manner similar to the sun or moon setting. This object was viewed and tracked with the Weather Station theodolite from the hangar roof.

POPULATION OF CITIES AND TOWNS

○ 0-250	● 5,000-10,000	■ 50,000-100,000
○ 250-1,000	● 10,000-25,000	■ 100,000 and Over
○ 1,000-5,000	● 25,000-50,000	

#### MAP EXPLANATION

U. S. INTERSTATE HIGHWAYS SHOWN IN RED

(4 lane pavement or over) SUPER HIGHWAYS—(State and U. S. Highways)

— HARD SURFACED, ALL WEATHER ROADS

— SEMI-SURFACED, ALL WEATHER ROADS

apt to be dusty when dry, muddy when wet.

— GRADED EARTH ROADS

During wet weather inquire about condition of local Texaco Station

— UNIMPROVED ROADS

State Highways

Virginia Secondary State Highways

U. S. Interstate Highways

Abbreviations in shield indicate:

ALT = Alternate

BYP = Bypass

At approx 1300 hrs State Police reported flying object near Elizabethtown. Ten minutes later sighted near Madisonville. A third call reported it over Lexington. (all south of Godman) Tower then alerted. Tower sighted object at 1445 and notified Col Hix who went immediately to tower where he observed the object thru 8-power binocs. Object also lined up with sighting bar. Three P-51 planes were already pursuing the thing on a course of 215°. (One pilot reported the thing to be traveling at 180 MPH) Col Hix reported the object appeared to the south and near the sun. "It was very white and looked like an umbrella," he stated. "I thought it was a celestial body but I can't account for the fact it didn't move." "I just don't know what it was." Appeared about 1/4 size of full moon and white in color. Thru the binocs it appeared to have a red border at the bottom at times and a red border at the top at times. It remained stationary (seemingly) for 1-1/2 hours.

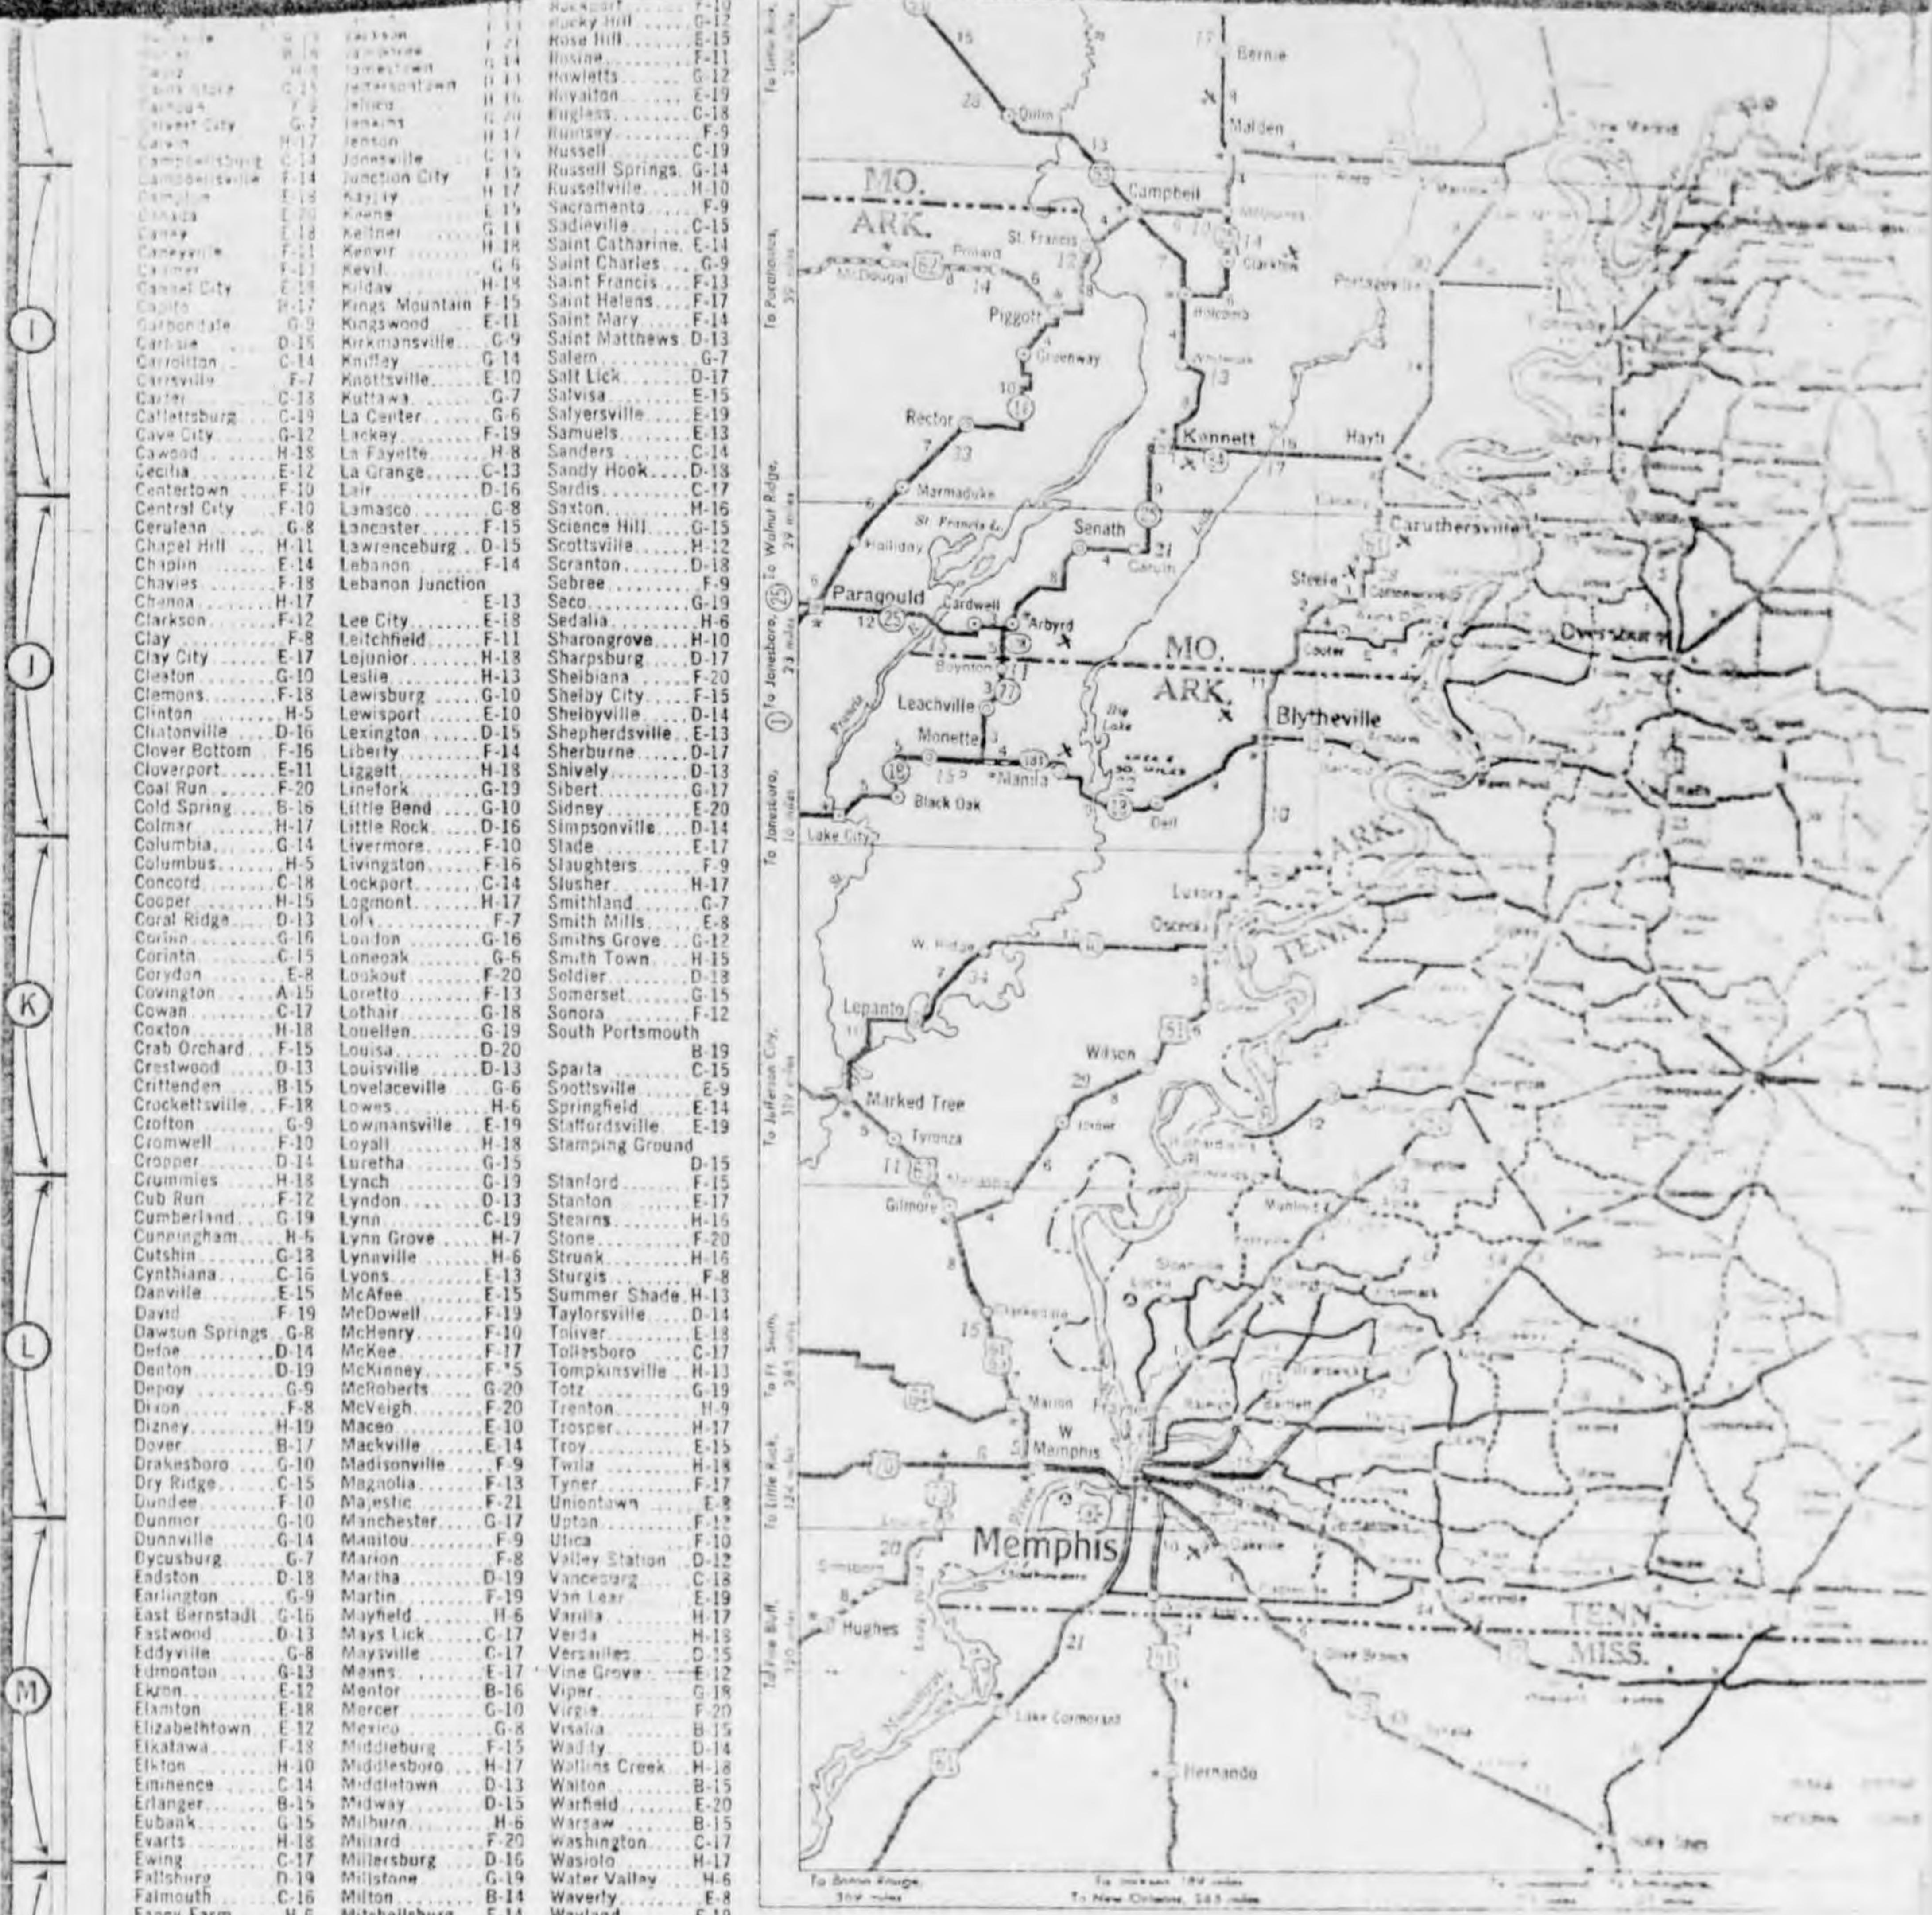

**RELIABILITY:** CO of Godman Fld. Obj chased by National Guard planes and followed from the ground by State Highway patrolman. See corroborating accounts.

## CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

Incident # 33D

1. Date 7 Jan 48
2. Time After 1407
3. Location Godman Fld
4. Name of observer ~~Capt~~ Capt Cary W. Carter
5. Occupation of observer Operations Officer
6. Address of observer Godman Fld., Ky
7. Place of observation Control Tower
8. Number of objects 1
9. Distance of object from observer N/S
10. Time in sight 3 to 4 minutes
11. Altitude Very high
12. Speed Approx 360 MPH - f/Flight Leader's reports
13. Direction of flight 210° f/Godman Fld
14. Tactics None
15. Sound N/S
16. Size Could not be determined
17. Color white
18. Shape Round - at times cone shaped
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails ~~HIGH SCATTERED CLOUDS~~ N/S
22. Weather conditions High scattered - visibility good
23. Effect on clouds Could be seen thru cirrus
24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: (over)

UNCLASSIFIED

At approx 1407, 7 Jan 48, Capt Carter was called by Lt Orner, AACS Detachment Commander, to come to Tower to witness an unidentified aerial object.

Object appeared round and white (whiter than the clouds that passed in front of it) and could be seen thru cirrus clouds.

After observing it thru field glasses for some 3 - 4 minutes, he called Col Hix's office. Col Hix, Lt Col Wood & Capt Duesler came to the tower shortly thereafter.

Capt Carter then suggested that a group of P-51 aircraft in the vicinity be contacted to pursue the object. T/Sgt Blackwell, Tower Operator, contacted the flight leader to take a look. Three planes proceeded on a heading of approx 230°. One of the planes (Mantell's) spotted it at 1200 o'clock position. Another plane relayed "This is 15,000 ft, let's level out" First speed as relayed by Mantell (180 MPH) Later, "object going up and forward as fast as I am" - or 360 MPH. Mantell then stated he was going to 20,000 ft and if no closer would abandon chase. Last radio contact heard by Capt Carter.

NOTE: Apparently, Mantell blacked out at 20,000 ft or proceeded on since the object apparently appeared closer(if such were the case)and then crashed thru lack of oxygen.

Does not seem to tally with report that the phenomena was "Venus or a comet"

A. M. Carter R.F.C.
