SPACE HABITAT INTERIOR

This "Bernal Sphere," housing 10,000 people, is nearly a mile in circumference, and rotates to provide "gravity" comparable to that of the Earth. The L-5 Society proposes building such habitats by the end of this century from lunar materials to provide living space for workers in a space manufacturing complex producing, among other things, satellite solar power stations to supply cheap, clean power to the Earth.

A full-color poster of this subject is available from:
L-5 Society, 1620 N. Park Ave., Tucson, AZ 85719.
