Subject: Internet-Authorised: REQUEST FOR INFORMATION

Dear [REDACTED]

I am writing with reference to your e-mail of 24 January 2005 in which you requested "information on u.f.o sightings from 1900 to 2004." Your request has been passed to this office as we are the focal point within the Ministry of Defence for correspondence about 'UFOs.'

I should inform you that this department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. Before any of this information can be released personal data has to be removed in accordance with the Data Protection Act 1998. Clearly, if we were to process copies of all these records the costs would quickly exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000 and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. If however, if you could be more specific about the information you are seeking we may be able to assist you

In the meantime, you may wish to be aware that there is already some information about UFOs available for public viewing. MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or by telephone on 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.go.uk>. The Ministry of Defence Freedom of Information Publication Scheme also contains documents relating to the well known events in Rendlesham Forest, Suffolk in 1980 and the final report of the Flying Saucer Working Party in 1951. These can be accessed via the internet at <http://www.foi.mod.uk>. A search in the Scheme under 'UFO' will take you to this information. We are looking to see if further information can be made available to the public and we are currently compiling a database of reports which we intend to publish in the MOD Freedom of Information Publication Scheme at the end of June 2005.

I hope this is helpful.

AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant: [Redacted]

Case Number: 21-04-2005-154117-005

Expiry: 20 May 2005

The Applicant has made the following request for information:

Details of all reported UFO sightings in the Oldham area in the past ten years including dates, time, details of reported sighting, any investigation findings etc.

Case for release of information

A search of all the UFO report and correspondence files for reports from Oldham for the full ten year period would exceed the £600 limit.

I have, however, told the applicant that we are compiling a database of reports and have searched the years that are currently completed (2002 -2005). This has produced only one relevant record, the details of which have been provided to the applicant.

[Redacted] also asked for information about the outcome of our investigations into the sightings. An explanation of our limited interest in these issues has been included.

A draft response is attached.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Dear 

I am writing concerning your Freedom of Information request for details of all UFO sightings in the Oldham area in the last 10 years. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in replying.

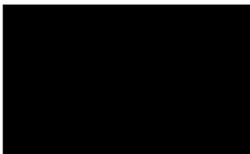

This department holds details of UFO sighting reports made to the MOD and public correspondence about UFOs (some of which also contain sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. They are not segregated by geographical area. The costs of searching all of this information for reports specifically from Oldham for a full 10 year period would exceed the £600 limit set for compliance with the Freedom of Information Act 2000. However, to assist the public we are in the process of compiling a database of UFO reports and this has now been completed for the years 2002, 2003, 2004 and to date in 2005. I have made a search through these records and have found one report from Oldham, the details of which are as follows:

21/06/04 17:55 Greenfield, Oldham, Greater Manchester. Large black cigar object seen, over the Greenfield area.

With regard to your request for details of the outcome of the investigation into the sighting, I should inform you that the Ministry of Defence does not carry out investigations into UFO reports, but examines them solely to establish whether they provide any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is a potential threat to the United Kingdom from an external source, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB. If you are still unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://informationcommissioner.gov.uk>.

Yours sincerely

AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant: [REDACTED]

Case Number: 21-03-2005-103053-003

Expiry: 19 April 2005

The Applicant has made the following request for information:

Details held by the MOD of all previously unpublished UFO sightings and reports of alleged contact with extra-terrestrials in Scotland since the Second World War. Also copies of internal and external written communications relating to each reported incident.

Case for release of information

The applicant has been informed that we do not hold information back to the Second World War and been given details of UFO information held at The National Archives.

With regard to records still held by the MOD the applicant has been informed why we can not supply all the information he is seeking. However, our UFO database is now complete from 2002 to 2005 and a search of this has revealed 47 reports which are relevant to this request. Brief details of these have been provided in the attached Annex.

A draft response is attached.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Grade/Rank: B2 Name: [REDACTED]

Dear [REDACTED]

I am writing concerning your Freedom of Information request for previously unpublicised UFO sighting reports in Scotland since the Second World War. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in replying.

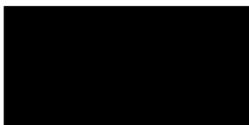

I should inform you that the MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for the National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or telephone 020 8876 3444. The National Archives also have a website containing an on-line catalogue of the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>.

Details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) from 1978 to date are currently held by the MOD. These records are not held electronically, but are filed on paper files in the order in which they were received. They are not segregated by geographical area. In order to identify the reports from Scotland for this entire period, it would be necessary to conduct a manual search of thousands of paper records and the costs of such an exercise would exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000 and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. However, we can advise you that in order to assist the public we are compiling a database of UFO sightings reported to the MOD which we intend to publish in the near future. To date we have completed this for the years 2002-2005 and a search of these records has revealed

47 reported sightings from Scotland during this period. I note that you requested copies of this information, but I should advise you that before we release this information all personal details about the individuals would have to be removed in accordance with the Data Protection Act 1998. I estimate that the cost of do this for all 47 records would also exceed the permitted limits. However, for your information I have prepared a list containing brief details of each sighting and this is attached at Annex A.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this respect, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB. If you are still unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

I am writing to request details held by the MoD of all previously unpublicised UFO sightings and reports of alleged contact with extra-terrestrials in Scotland since the Second World War. I would also like copies of internal and external written communications relating to each reported incident.

AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant: [REDACTED]

Case Number: 01-06-2005-092509-001 **Expiry:** 29 June 2005

The Applicant has made the following request for information:

Please can I inspect a list of all reports of Unidentified Flying Objects in the London Boroughs of Camden, Islington and Westminster since June 1 2000. Information should include files, documents, e-mails, letters, photographs etc. Information can be anonymised where appropriate.

Case for release of information

The MOD does not hold "lists of UFO sightings".

An explanation of the records we hold has been given to the applicant, plus why it is not possible to conduct a manual search of paper records for the whole period of his request.

While not covering the whole period of this request, our UFO database is now complete from 2002 to 2005 and a search of these records has revealed one report which is relevant. A copy of this (with personal data removed) can be provided to the applicant.

A draft response is attached.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Dear [REDACTED]

I am writing concerning your Freedom of Information request for information about UFO sighting reports in the London Boroughs of Camden, Islington and Westminster. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for not replying sooner.

The MOD does not hold lists of UFO sightings. This department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received and are not segregated by geographical area. This means in order to locate UFO reports from the areas you have specified it would be necessary to conduct a manual search of hundreds of paper records, the cost of which would be likely to exceed the £600 limit for compliance with the Freedom of Information Act. However, to assist members of the public we are in the process of constructing a database of the UFO reports we have received and while this has not yet been completed for the full period of your request, the years 2002 to date have now been finished and a search of these has revealed only one report during this period relevant to your request. A copy of the report and the MOD's response is attached for your information. Personal details about the individual who made the report have been removed in accordance with the Data Protection Act 1998.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB. If you are still unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate each case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely

Dear [REDACTED]

I am writing with reference to your report of an 'unidentified flying object', seen on 25 April 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 25 April 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

Yours sincerely

Please see below details of 11 UFO sighting reports received from Essex and 3 from Suffolk between 2002 and 2005, as requested.

ESSEX

DATE	TIME	LOCATION	DESCRIPTION
07/03/02	19:45	Hornchurch	Two semi circular, elliptical shapes dully illuminated yellow and white. There was a faint murmur.
31/05/02	23:00	Harlow	Two very large disc type aircraft, that were white and had a dull glow.
18/09/02	19:20	Halstead	Display of three lights in a sort of star shape. The lights were in formation, circling.
04/10/02	20:30	Southend	One white very small object, very high up in the sky.
11/04/03	22:21	Stansted	A ball of fire, very bright, with no colour
09/01/04	22:30	Thaxted	Strange light in the sky, that was watched for one and a half hours.
09/04/04	17:57	Greater Chesterford	60ft long symmetrical object
29/08/04	03:05	Loughton	The object was white, hazy and round and had no noise
10/10/04	22:15	Colchester	Bright orange/red colour object, rapidly and randomly changing direction from East to West.
11/11/04	14:15	Ilford	The object was the size of a round beach ball and black. Looked disc shape when stationary in the sky.
April 05		Basildon	A spaceship with aliens (the greys), sitting on top of it, above the bungalow.

SUFFOLK

DATE	TIME	LOCATION	DESCRIPTION
23/10/02	07:02	Woodbridge	Large silver triangle which then changed shape. Was clouded in a pink and green haze
01/12/03		Woodbridge	Looked like an unusual aircraft, but with strange lights.
01/03/04	20:00	Lowestoft	Yellow lights in a circular formation. A flash shot across the sky and then the lights went out.

With regard to your request for details of the outcome of investigations into the sightings, I should inform you that the Ministry of Defence does not carry out investigations into UFO reports, but examines them solely to establish whether they provide any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant: [Redacted]

Case Number: 01-06-21005-175335-007

Expiry: 29 June 2005

The Applicant has made the following request for information:

How many unidentified flying objects have been reported over the skies of North Lincolnshire (the area covered between Barton and Epworth, including Scunthorpe) in the last 5 years?

Where and when were these UFOs reported?

Who reported them?

What were they reported to be doing?

For the incidents above, can I also see the results of any investigations, or explanations into what these UFOs may have been.

Case for release of information

An explanation of the records we hold has been given to the applicant, plus why it is not possible to conduct a manual search of paper records for the whole period of the request.

While not covering the whole period of the request, our UFO database is now complete from 2002 to 2005 and a search of these records has failed to reveal any UFO reports from the area specified.

A draft response is attached.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Dear [REDACTED]

I am writing concerning your Freedom of Information request for details of UFO sightings over North Lincolnshire for the past 5 years. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in replying.

This department holds records of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) from 1978 to date. They are not held electronically or segregated by geographic area, but are filed on paper files in the order in which they were received. It is possible that amongst these documents there are reports from North Lincolnshire, but in order to gather the information you are seeking for a full 5 year period, a manual search of hundreds of paper records would be required. It has been assessed that the cost of such an exercise would exceed the permitted £600 limit set for compliance with the Freedom of Information Act and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. However, in order to assist members of the public with enquiries about UFO sightings, this department is currently compiling a database of UFO reports and this has now been completed for records from 2002 to date. I have made a search through these records and have found that there have not been any UFO sightings reported to us over the skies of North Lincolnshire, covering the areas of Barton, Epworth or Scunthorpe for those years.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of handling this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB. If you are still unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Dear sirs,

Under the Freedom of Information Act, can I please have details of the following:

How many unidentified flying objects have been reported over the skies of North Lincolnshire (the area covered between Barton and Epworth, including Scunthorpe) in the last 5 years?

Where and when were these UFOs reported?

Who reported them?

What were they reported to be doing?

For the incidents above, can I also see the results of any investigations, or explanations into what these UFOs may have been.

Many thanks,

Chief reporter

Dear [REDACTED]

I am writing concerning your request for information about the events near Rendlesham Forest, Suffolk in December 1980. Your message has been passed to this department as we are the focal point within the Ministry of Defence for correspondence about 'unidentified flying objects'.

The records the MOD holds on these events have been released into the public domain and can be viewed on the Internet in the MOD Freedom of Information Publication Scheme at www.foi.mod.uk. Please use the search link on the left hand side of the Home page and search under *UFO*, then go to *Correspondence* and this will enable you to see scanned images of these documents. The Publication Scheme also contains a statement of our policy on UFOs and a copy of the final report of The Flying Saucer Working Party dated June 1951. You may also wish to look at the Reading Room where there are some of the replies to the Freedom of Information requests we have answered about UFOs since the introduction of the Freedom of Information Act 2000 in January this year.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant [redacted] - Kent on Sunday

Case Number: 13-06-2005-111507-005 Expiry: 7 July 2005

The Applicant has made the following request for information:

1. Please could you provide me with information kept of UFO sightings over Kent, including the London boroughs of Bromley and Bexley, during the last 50 years?
2. Could you give me copies of all ministerial correspondence from the last two years on the subject of vibrations caused by Shoeburyness Firing Range in Essex?

Case for release of information

[redacted] is co-ordinating the reply to this request and has asked for our input for the UFO part of the request. A draft response is attached.

We do not hold information for the past 50 years, but the applicant has been informed how they can access information up to 1977 at The National Archives. We hold information from 1978 to date, but a search of all of these records UFO sightings in Kent would exceed the £600 limit so this has been refused. I have however, conducted a limited search of the records we have compiled on our UFO database and details of the few found for Kent have been provided.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Grade/Rank: B2 Name: [redacted]

Signature: [redacted]

Date: 29 Jun 05

With regard to your request for information about UFO sightings over Kent, during the last 50 years, I should inform you that the MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for the National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or telephone 020 8876 3444. The National Archives also have a website containing an on-line catalogue of the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>.

Details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) from 1978 to date are currently held by the MOD. These records are not held electronically, but are filed on paper files in the order in which they were received. In order to identify all of the records for Kent, it would be necessary to conduct a manual search of thousands of paper records and the costs of such an exercise would exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000. ~~and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request.~~ However, we can advise you that in order to assist the public we are compiling a database of UFO sightings reported to the MOD which we intend to publish in the near future. To date we have completed this for the years 2002 to date and recorded a few reports in 2001. A search of these records has revealed several reports from Kent and details of these are attached at Annex A. Personal data about those who made these reports has not been provided in accordance with the Data Protection Act 1998.

I hope this is helpful.

TO Ref No 4669 /2005
 Date 9/6/05

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the above date**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

Most correspondence involves some form of request for information – even if it is only a request for clarification of Government policy – and is therefore covered by the Freedom of Information Act (FOIA) from January 2005. In general, if you meet the deadline for responding to correspondence, and comply with any requests for information, there is no need to do anything differently as this will meet the requirements of the Act. However, if the correspondence requests information which is not already in the public domain, and which might need to be withheld, then you should treat it as a FOIA request, track it using the Access to Information toolkit, and comply with the separate FOI guidance from DG Info (see <http://aitportal/default.aspx> for details). However, the deadline for responding to correspondence will still apply. If you are in any doubt as to whether a piece of correspondence should be treated as an FOIA request, you should ask your FOI Focal Point or refer to the guidance produced by DG Info.

It is vital that branches ensure they have simple systems to record and track correspondence received from members of the public. This information should be regularly monitored and reviewed against the targets for answering correspondence published in the Spending Review 2000 Service Delivery Agreement for the Ministry of Defence.

As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.

CREDIBLE WITNESS 'UFO' REPORT - 17 NOV 03

Reference:

A. D/Sec(AS)/64/2 dated 17 Nov 03.

At Reference, you asked whether the report submitted by Sgt [REDACTED] from New Scotland Yard, through Plt Off [REDACTED] at CRC Neatishead, regarding "20-30 red flashing lights in the sky accompanied by a whirring noise" at 0225hrs on 17 Nov 03 at Bromley in Kent, represented anything of air defence interest. CRC Neatishead have reviewed the radar tapes for the time period specified and other than routine air traffic in the area, nothing additional was detected in the area despite good radar coverage. Therefore, I can now confirm that the incident does not represent anything of air defence interest.

Dear [REDACTED] 40

I am writing concerning your request for information about an incident at RAF Boscombe Down on 26th September 1994 which has been passed to this department for action. I apologise for not sending you a response sooner.

I understand there have been press reports in the past alleging that an aircraft crashed at Boscombe Down on this date, but I can inform you that on 1 December 1994 the then Minister of State for the Armed Forces, the Hon Nicholas Soames MP, in answer to a Parliamentary Question from the late Martin Redmond confirmed that despite press reports at the time, there was no crash at the unit on that date. The only flying that took place that night was the launch of two Royal Navy Sea King helicopters in support of an exercise.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

DAS-FOI
22 June 2005.

Aerospace concerning the use of RAF Bentwaters as a base in connection with the showground air combat range.

Mr. Soames: None.

Aircraft Accidents

Mr. Redmond: To ask the Secretary of State for Defence if he will make a statement on the air crash at Boscombe Down airfield on the evening of 26 September.

Mr. Soames: I am aware of a press report of such an incident. Staff at Boscombe Down have confirmed, however, that there was no crash at the unit on that date or, indeed, so far this year. The only flying which took place that night was the launch of two Royal Navy Sea King helicopters in support of an exercise.

Mr. Redmond: To ask the Secretary of State for Defence how many man hours were spent on repairs to Tornado ZA611 following its accident in December 1986; and on what dates the aircraft has been flown since its accident.

Mr. Soames: Tornado ZA611 was repaired in industry, and the details of the contract covering the repair remain commercially confidential. Since its accident, the aircraft was flown on 19, 22 and 28 January 1993. The aircraft has since been held in storage pending its entry into a modification programme, after which it will return to active service.

Mr. Redmond: To ask the Secretary of State for Defence if he will make a statement on the date and circumstances of the accident to Tornado F3 serial number carried out on the aircraft since its accident, and by which unit; what is the estimated additional number of man hours required to complete repairs to the aircraft; and what is the estimated total cost of restoring the aircraft to front line service following its accident.

Mr. Soames: Tornado F3 ZE250 was damaged on 27 March 1992 during engine ground runs. To date, RAF tradesmen have expended 9,025 man hours on the repair, and it is estimated that a further 7,090 man hours will be required before the aircraft can be restored to service. The labour costs of returning the aircraft to service are estimated at approximately £800,000. The cost of spares and materials, which have been provided from existing stocks, could be provided only at disproportionate cost.

International Chart Service

Mr. Redmond: To ask the Secretary of State for Defence if he will place in the Library a copy of the International Chart Service North sea-southern sheet 1:750,000 2182A, INT.1043, published at Taunton on 10 August 1973.

Mr. Soames: It is not our usual practice to lay such charts in the Library. They are widely available, however, from commercial sources.

Hercules Fleet

Mr. Jacques Arnold: To ask the Secretary of State for Defence when he expects to be able to make an announcement on the future of the RAF's Hercules fleet.

Mr. Freeman: We hope to be able to make an announcement shortly.

Staffing

Mr. McAllion: To ask the Secretary of State for Defence if he will provide a breakdown by military rank and civilian grade of the number of service personnel and civilian staff employed in (a) the personnel and training command and (b) the logistics command.

Mr. Soames: The strength of the two commands as at 1 October 1994 is as follows:

	Personnel and Training Command	Logistics Command
<i>Officer Ranks</i>		
Air Chief Marshal	2	1
Air Marshal	—	1
Air Vice-Marshal	9	3

Dear [REDACTED]

I am writing in response to your requests for information from the Ministry of Defence regarding the United States Visiting Force (USVF) in the UK and US exchange officers, based in the UK. I apologise for not responding sooner.

There are a number of military installations in the UK, with a variety of functions, which are made available to the USVF under the terms of the North Atlantic Treaty Organisation Status of Forces Agreement of 1951; details of these and the number of USVF personnel (military and civilian) posted to these installations are attached at Annex A to this letter. Please be advised that the number of personnel can vary slightly due to turnover of posts.

In our letter of 31st March we provided you with numbers of US military personnel stationed, as part of the USVF in the UK, this table is reproduced below:

US Service	Number
Army	375
Air Force	10,166
Navy	713
Marines	67
Total	11,321

A small number of US military personnel who are not part of the visiting force are also stationed in the UK as exchange officers and at the US Embassy.

With regard to your question about jurisdiction, I can inform you that neither US Military Police nor USAF security personnel have any jurisdiction over British civilians.

Details of the British military units where US military staff are posted as exchange

officers is attached at Annex B to this letter as requested.

Finally, with regard to your question about a US military liaison office, I can inform you that there is no individual office within the MoD which conducts such a task. Various branches within the MOD liaise with US authorities as necessary on a variety of subjects.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. AUTHORISATION FOR THE RELEASE OF INFORMATION

Applicant: [REDACTED]

Case Number: 08-02-2005-091654-004

Expiry: 07/03/05

The Applicant has made the following request for information:

- 1) Information/reports the MOD have in relating to any Unidentified Flying Objects or unidentified phenomena or Unidentified objects, whether reported by the general public or by military personnel working for the MOD or subcontracted to the MOD, for Wales in the UK from the year 1990-2005.
- 2) Any information the MOD have relating to UFOs reported in the Brecon, Powys area in the last 10 years.
- 3) Any information the MOD have relating to parliamentary MP's or Prime Ministers comments and/or reports and/or meetings in relation to Unidentified Flying Objects or unusual phenomena which can't be explained.
- 4) A copy of financial records currently held by the MOD in relation to what it spends in researching and/or investigating Unidentified Flying Objects in the UK, of if too broad, Wales, UK.

Case for release of information

1&2) We could not fully comply with the request as the amount of information requested would have exceeded the £600 permitted by the Freedom of Information Act.

I looked through the database of the years 2002, 2003, 2004, and up to date 2005 and found 28 reports from Wales, including Brecon in Powys.

3) As to the question of there being Prime Ministers comments, we have informed the applicant that there have been no such meetings in recent years.

4) Finally with regards to the spending we do not carry out investigations into the sightings so there are no such records held.

Draft of letter enclosed also.

Authorisation

I hereby give authorisation for the release of the aforementioned information to the Applicant.

Dear [REDACTED]

I am writing concerning your request for information/reports relating to UFO sightings to the Ministry of Defence. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in responding to your request.

First, it may be helpful if I explain that the Ministry of Defence does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena. The Ministry of Defence examines any reports of UFOs' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your requests for reports from Wales for the past 15 years and those from Brecon, Powys in the last 10 years, I should inform you that our records are not held electronically but are filed on paper files in the order in which they are received and we currently hold such records spanning a 25 year period. Before any of this information can be released, personal data has to be removed in accordance with the Data Protection Act 1998. If we were to process all the reports you requested, the costs would exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000, and as provided by section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. However, we are currently in the process of compiling a database of UFO reports. This has now been completed for the years 2002, 2003, 2004 and to date in 2005, and we are in the process of compiling 2000 and 2001. I have looked through these records and found 28 reports from those years, in Wales including Powys, and I

I have enclosed the copies for your information. Personal data has been removed in accordance with the Data Protection Act 1998.

You also asked for information relating to MPs or Prime Minister's comments or reports or meetings relating to UFOs. There have been no such meetings in recent years, so there are no records we can provide. You may however wish to be aware that in July 1952, the then Prime Minister, Winston Churchill, asked his Secretary of State for Air, Lord Cherwell, to let him have a report about the reports of "flying saucers" that were appearing in the press. For your information I enclose a copy of the Prime Ministers note and the reply. The original documents can now be found at the National Archives. The "Intelligence study in 1951" is the final report of the Flying Saucer Working Party which can be seen in the MOD Freedom of Information Publication Scheme at www.foi.mod.uk.

Finally, with regard to your request for financial records in relation to MOD spending on investigations into UFO sightings, as explained at the start of this letter, the MOD does not carry out investigations into this phenomena and no such records are held.

If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely

SERIAL No. M. 412 / 52

SECRETARY OF STATE FOR AIR

LORD CHERWELL.

What does all this stuff about flying saucers amount to? What can it mean? What is the truth. Let me have a report at your convenience.

W.S.C.

28 July 1952

PRIME MINISTER

The various reports about unidentified flying objects, described by the Press as "flying saucers", were the subject of a full Intelligence study in 1951. The conclusions reached (based upon William of Occam's Razor) were that all the incidents reported could be explained by one or other of the following causes:-

- (a) Known astronomical or meteorological phenomena
- (b) Mistaken identification of conventional aircraft, balloons, birds, etc.
- (c) Optical illusions and psychological delusions
- (d) Deliberate hoaxes.

2. The Americans, who carried out a similar investigation in 1948/9, reached a similar conclusion.
3. Nothing has happened since 1951 to make the Air Staff change their opinion, and, to judge from recent Press statements, the same is true in America.
4. I am sending a copy of this to Lord Cherwell.

[REDACTED]

He advised [REDACTED] of the following:-

That himself and his colleague [REDACTED] had seen 6 x objects emitting a white bright light travelling over the top of the Travel Inn in the general direction of Pontardawe. Each of these objects appeared to be flying in formation however there was a definite gap between each item. They travelled at a slow steady speed keeping at the same height however there was no engine or other noise coming from the objects. No persons were seen and it appeared that the objects would sometimes form an arc or the top and bottom object would move forward to be joined by the other four in the formation which was just off 90 degrees with the top object being in front. The objects were in his field of vision for approx 6 minutes stated that owing to the height the objects were travelling the rectangular objects were approx 15-20 feet in length.
